# MAZOLA

enables the housewife to save butter, lard, suet—and give her family the best of foods

"THE proof of the pudding is in the eating"—and the proof of Mazola is in the cooking.

Mazola is not only the perfect medium for deep frying, sautéing, shortening and salad dressings—it is the perfect vegetable oil—produced from golden American corn. Food Administrator Hoover asks us to use vegetable oils.

Mazola has not been established in a day. It has taken months of trial on the part of housewives who at first were reluctant to give up butter, lard or compounds.

If you are not already numbered among the thousands of Mazola users, get a can of Mazola and try this recipe.

### BREAKFAST MUFFINS

2 cups flour 1 teaspoon salt 1 cup milk  
4 level teaspoons 1 tablespoon sugar 1 full tablespoon  
baking powder 1 egg Mazola

Sift dry ingredients together, being sure they are thoroughly mixed. Beat the egg, add it to the milk and turn it into the bowl containing the dry ingredients. Add the Mazola and cut all together very quickly. Do not beat. Turn into muffin pans greased with Mazola, and bake in a moderately hot oven about 25 minutes.

Mazola can be obtained from your grocer. Pint, quart, half-gallon and gallon tins—for greatest economy buy the large sizes. Also ask him for the free Mazola Book of Recipes—or write us direct.

Your money refunded if Mazola does not give entire satisfaction.
