POWELL BUTTE MEN WANT BETTER ROADS

TWENTY-FIVE DELEGATES APPEAR BEFORE COUNTY COURT

WILL BE AT LUNCH TOMORROW

Prineville Business Houses Should Assist In Improving Roads They Say

A delegation of twenty-five men, all representative citizens of the Powell Butte country, were in Prineville yesterday in an effort to secure some road improvement work for Prineville-Powell Butte road.

They took the matter up with the county court, and asked that money be appropriated for the improvement of a direct road from the Community Hall neighborhood to this city.

While they were welcomed by the court, who told them that the road work should be done, no appropriation was made for the reason that there is no fund for such work this year, and Commissioners Lister and Luthy had both come many miles to Prineville over roads that are as near impassable as can be imagined.

The delegation will return to Prineville tomorrow, and will take the matter up with the business men at the noon luncheon, with the hope of securing aid.

There can be no question about the merit of the claim made by the Powell Butte men.

It is only a matter of funds, and the condition of this road as compared to other roads leading into the city.

Some help should be given this community, and it is to be hoped that the problem can be solved at the meeting tomorrow.

PRINEVILLE CATTLE ARE SHIPPED TO PORTLAND

Five cars of Prineville cattle were shipped to the Portland market the first of the week.

Three cars were shipped by Geo. Dickson, one by T. J. Houston and another by the Fair View Stock Farm.

While the number of beef in local feed lots this year was cut down by the hay shortage last fall, mild winter weather has made the hay supply go much farther than was considered possible, and the cattle situation is much better than was considered a few months ago.

Mr. Baldwin of the State Central Committee Says Crook Leads Oregon Also

Judge Wallace has been appointed county chairman of the next liberty loan drive, by Edward Cookingham, state chairman.

The next drive will be announced for early in March, and will be for the largest amount that any nation has ever asked for at one time since the world was new, and there is no question about its being a success, for America leads the world in all big things.

It has been announced that Oregon leads the nation, in all patriotic moves, and that phrase has been suggested by the state central committee for the state.

T. M. Baldwin, who is our representative on the state central committee, says that Crook County is one of the eleven counties in the state that leads Oregon, hence Crook is at the head of the class.

Judge Wallace will announce the other members of his committee, and will call a meeting next week, for the purpose of organizing the county for the big drive.

Efforts will be made to reach every community he says, and all who are able to buy even a \$50 bond will be asked to do so, to aid in this national call.

TRAINS TO PRINEVILLE EARLY POSSIBILITY

LAST OBSTACLES BEING REMOVED FOR STEEL

TWOHY BROS. TO LAY TRACK

Operations Will Start On Signing Of Contract This Week

"Given reasonable notice, the companies represented by Mr. Gillman and myself will undertake to supply about 18 miles of railway rails. Our attorneys will jointly cooperate in preparing agreement for submission to you at early date."

The above telegram, signed by J. D. Farrell, has been received by Mayor Stewart, and removes the last obstacle that was delaying the completion of the Prineville railway.

The contract mentioned in the telegram, which has been outlined for months, is expected not later than tomorrow. After its execution, the council will take up the contract that has been pending with Twohy Brothers Company for the laying of the track.

This will be started immediately, according to Mr. Grier, local manager for the big construction concern, and can be completed in a few weeks at the most, after material is on the ground.

The lumber for bridges has already been cut, and Mayor Stewart secured the final amount of ties yesterday while in Bend for that purpose. This was but a small number, but they will be necessary to complete the road.

Unless delays that cannot now be foreseen develop because of war conditions, a few weeks at most should see regular train service to Prineville.
