

AMERICANS DEFEAT BIG GERMAN ATTACK

Yankees Beat off Strong Force of Best Picked "Shock" Troops.

With the American Army in France. —The three recent raids, one in the Toul sector and two along the Chemin des Dames, have demonstrated that the American soldier, notwithstanding his previous inexperience, now is perfectly at home in a gas mask and able to fight just as well with as without it.

The Americans met the best picked troops of the German army—troops of the "shock" type, especially trained for raiding—and beat them at their own game of war.

In the hand-to-hand struggle the Americans lost some in killed and wounded, including officers. A few others were reported missing.

After the fight 12 German bodies were found in the American trenches, while about a score more bodies were seen in the snow and amidst the barbed wire entanglements.

The attack was made in a driving snowstorm against a salient on the American front. A heavy bombardment of the American position accompanied the attack. But instead of finding the Yankees bewildered, stunned and crouching gasmasked in their dugouts, the Germans met a maddened crowd of bareheaded demons, intoxicated with excitement and the joy of combat.

Hurling themselves upon the Germans the young Americans fought desperately, entirely smashing the carefully laid boche program. The German survivors were sent scuttling back to their lines, while the American

gunners slammed down a violent barrage through which the fleeing troops had to pass. Three German prisoners remained in the hands of the Yankees, two of them having been wounded.

A plan of attack, including a map of the American positions, indicating every dugout, which was removed from the body of the Prussian captain who led the recent assault upon the sector northwest of Toul, shows how completely the Germans prepare their raids, if in fact this was but a simple raid, not having as its ultimate object the retention of a portion of the salient.

The map goes into such detail as to show every machine gun emplacement, every trench and every depression in the ground within the American lines.

C. C. H. S. BOY MAKING GOOD

Oren E. Noble, who enlisted last April, just before war was declared is making good in the Navy. He is at the Niagara Motor Boat plant at Tonawanda, preparatory to going to Europe to assemble and repair hydroplanes. He is now a third class carpenter's mate and has just recently received two new rating badges.

The following is taken from a Tonawanda newspaper:

"A dozen members of the United States navy arrived here today for a stay of a few weeks for the purpose of studying construction work at the Niagara Motor Boat Company's plant on Sweeney street. Equipment for hydro-aeroplanes is manufactured by the local company. The members of the navy stationed here are the first to be sent to the local company's plant. They are making a study of operations here in order to fit themselves for repair work on flying machines that will form an important part of Uncle Sam's fighting equipment in Europe."

"Twelve men from the United States Navy, stationed in Buffalo to study mechanical work in connection with the aeroplane industry, were the guests yesterday of Mayor B. L. Rand and family. They were entertained at lunch and dinner and in the evening the bluejackets attended service at the Payne Avenue Church of Christ. The party was composed of the following men: Oren E. Noble of Prineville, Oregon, C. O. Brown of Durham, N. C., C. G. Killingsworth of Fort Stockton, Texas, C. R. Dennis of Greensboro, S. C., Morris E. Weber of Philadelphia, David R. Uncle Sam's Postman Has a New Job

He is now also a recruiting officer to enlist the financial support of the youngsters. Let him be your children's adviser in the matter of thrift. Let him show them what it means to substitute interest-bearing Thrift Stamps for the penny savings bank. Let him be the medium to put your children into actual contact with their country's government.

The Thrift Stamp represents to the children what the Liberty Bond represents to adults. The penny embodies war power just as the dollar,—for pennies make dollars. The Thrift Stamp idea is designed to reach those who think in terms of cents. The power of the penny is shown by the fact that the government hopes to raise two billions of dollars from the sale of these stamps.

Thrift Stamps make a reality of the children's patriotism by allowing them to aid the government with money for war purposes. A child's savings may be a means to shortening this war by days, and every day means the redemption of colossal waste.

Thrift Stamps cost 25c each. Books of 16, with a few cents added, are at any time exchangeable for certificates which will be worth \$5.00 in 1923. These Stamps are received as payments on Liberty Bonds. You may obtain them at any Post Office, your mail carrier, and at most stores.
