Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.

A Remarkable Invention

It is no longer necessary for the motorist to get stuck. This little device, if carried in his tool-box, multiplies his power by 73, and makes him independent of road conditions. If his auto sticks in the mud, skids into a ditch or overturns, he can right it in 10 minutes by simply driving the three stakes in the ground, attaching

PULL-U-OUT

to them and to the auto and giving the ratchet crank a few easy turns. The stakes will hold, even in very soft ground—and out comes the auto. No trouble, no expense, not even soiled clothes! This wonderful little device lifts a ton, of dead weight, or pulls 50 tons on wheels; yet its shipping weight is only 28 lbs., and it fits easily into a space 4x6x14 inches
