22 Million Families in the United States

4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.

Corn Meal Biscuits

- 1/2 cup scalded milk
- 1 cup corn meal
- 2 tablespoons shortening
- 1/2 teaspoon salt
- 1 cup white flour
- 4 teaspoons Royal Baking Powder

Save 1/2 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.
