PEACE TREATY IS SIGNED BY RUSSIA

Strong German Demands Are Agreed to Without Argument By Slavs.

Petrograd.—In the fear that argument would result in even more onerous terms, the Russian delegation at Brest-Litovsk has accepted all the German peace conditions and signed an agreement, according to a telegram from the delegates.

The demands already have been increased, they reported.

The message, which was addressed to Premier Lenine and Foreign Minister Trotzky, follows:

"As we anticipated, deliberations on a treaty of peace are absolutely useless and could only make things worse in comparison with the ultimatum of February 21. They might even assume the character of leading to the presentation of another ultimatum.

"In view of this fact and in view of the Germans' refusal to cease military action until peace is signed, we have resolved to sign the treaty without discussing its contents.

"The most serious feature of the new demands, compared with those of February 21, is the following: To detach the regions of Karalind, Kars and Batoum from Russian territory on the pretext of the right of peoples to self-determination."

The new territorial claims upon Russia are apparently advanced in the interest of Turkey.

The treaty's provision for surrender of the Caucasus district to Turkey, contrary to the treaty of Berlin, cannot be made permanent until ratified by an international congress.
