**OCHOCO TAX IS INTEREST**  
Charge Was Made Imperative by Bond Buyers

Surprise has been expressed by some of the owners of Ochoco project lands that they should be required to pay an interest charge on their portion of the bonded indebtedness of the district at this time. The charge is made necessary because of the demands of the bond houses—that the land be subject to this tax. Otherwise the tendency would have been to not develop the lands, but hold them for speculative purposes, which is not desirable for any of the parties interested.

The charge is \$3.14 per acre, of which \$2.50 is interest on bonds.

Gentlemen:—

In regard to harvester. We cut 280 acres, had very little trouble outside of a few chains broken. Did good work, handled nicely with eight horses.

Both horses and machine came through in good shape. Machine shows very little wear after season's run.

Respectfully,
