IN a year it has become famous; the man's cigarette for the men who are working over here, and fighting over there.

The reason? Because it's made of Burley pipe tobacco and because—

His hired man, after smoking, carelessly threw the stub of a cigar down near a straw pile, and George discovered a smart blaze soon after and with some difficulty extinguished it. People cannot be too careful this dry, windy weather, and no man should smoke about a barn or shed.

MAZOLA

This pure oil from corn for shortening and all general cooking improves food quality—and saves animal fats.

IT has taken American ingenuity to solve the fat problem—to find a practical, wholesome vegetable oil for shortening, deep frying, sautéing—something that will enable us to save butter, lard and suet.

The result is Mazola—a pure, wholesome oil refined from golden American corn.

Mazola has taken the place of the old cooking mediums—because housewives find that it gives more satisfactory results.

And since Mazola is a vegetable oil it makes it easy for them to follow the plans of Food Administrator Hoover.

Mazola is economical—not one single drop is wasted—it can be used over and over again as it does not transmit taste or odor from one food to another.

Get Mazola from your grocer in pint, quart, half-gallon or gallon tins. The large sizes give greatest economy. Also ask for the free Mazola Book of Recipes—or write us direct.

Your money refunded if Mazola does not give entire satisfaction.
