WELSH ORATOR AT CHAUTAUQUA

Nephew of David Lloyd-George Lectures on Second Day.

Dr. Arthur Walwyn Evans, the young Welsh orator, who has made such a splendid impression throughout America in the last few years, is a nephew of David Lloyd-George. No man on the platform is in greater de-

mand today than Dr. Evans. His lecture, "What America Means to Me," will be one of the outstanding events of Chautauqua week. It is straight from the heart of a man who sees clearly and speaks fearlessly and, while it makes audiences laugh with its keen and brilliant humor, it also makes them think seriously and deeply and feel a new affection for their country. Dr. Evans will give this splendid patriotic lecture on the second night of Chautauqua.

JOHN COMBS NOW IN RACE FOR SHERIFF

INDEPENDENT CANDIDATE HAS HELD OFFICE SOUGHT IS COMPETENT AND QUALIFIED

Pledges Strict Enforcement Of All Laws and Economy In Office

John Combs is a candidate for sheriff of Crook County. The announcement will of course be a surprise to many as Mr. Combs has not been active in political circles for some time, but everyone who knows him will concede the fact that he is well qualified for the place, and a strong candidate from the start.

Mr. Combs was deputy sheriff in this county 1886 to 1888, during which time J. N. Williamson was sheriff. In 1888 he succeeded Mr. Williamson as sheriff, and was again elected in 1894, which was the last time he was a candidate for the place.

He was in charge of the tax collection department during the time Frank Elkins was sheriff, when the county included Jefferson and Deschutes, and handled the business in a competent manner.

During the last several months he has held a responsible position with the Deming Mines Company of Idaho, but always has retained his property interests in this county, having been a resident of the county since a boy.

When interviewed concerning his candidacy yesterday Mr. Combs stated that he believes that "All laws on the statute books should be enforced without question, and especially the prohibition law. The way to enforce this law is to prevent its violation, instead of attempting to catch the violators."

He also stated that he is in favor of economy in the administration of the sheriff's office.

Should he be elected there can be no question about the fact that the office will be conducted on a business basis. He has been urged by any of his friends to get into the race, and has not sought the office.

GERALDINE FARRAR COMING

When the massive sets were built for the production of "Intolerance", it was thought the last word in the construction of photo-dramatic sets had been reached, but Cecil B. deMille, the famous producer, who is responsible for the Artcraft production "The Woman God Forgot" in which Geraldine Farrar will be seen at the Lyric on Friday and Saturday has gone even that, famous set one better.

The scenes of "The Woman God Forgot" are laid during the Spanish conquest of the Aztecs and Mr. deMille had erected an exact reproduction of the famous pyramid of Teocall, surrounded by an entire Aztec city. This one set covers an area of two square miles and the pyramid is nearly 200 feet in height and of the most substantial construction, owing to the fact that over a thousand men battle up the stairs and inclines to the temple at the top. The interior of the pyramid is also complete in the most minute detail, the huge sacrificial room being reproduced in the exact size of the room in which the High Priest of Aztec sacrificed his human victims to the Aztec gods.

How To Develop Good Teeth

YOUR teeth need exercise daily. By masticating the hard and rougher sort of food they can best be kept in condition. Hard crusts and other coarse and fibrous foods which require thorough chewing before they can be swallowed, are especially good, not only for children but for adults also. It helps to produce a good circulation of blood and in children develops the muscles and expands the jaws, so that room is provided for the incoming larger teeth. Children should be allowed to eat only at regular hours. A child should be taught to chew his food very thoroughly.

Proper training and care of the teeth in childhood establish habits they will appreciate in after years. A few minutes longer with the tooth-brush each morning and night—a visit to a good dentist at intervals—will save lots of unnecessary pain and avoid poor health which will surely follow neglect of the mouth and teeth.

ANNOUNCEMENT

I hereby announce that I am an independent candidate for the office of sheriff of Crook County, and wish to submit my candidacy to voters of this county at the general election to be held in November. My platform is the ten years' experience I have had in the Sheriff's office in this county, and the manner in which I conducted the office.
