Announcement

I wish to announce that I will be in my old office over Crook County Bank after July 18.

I will specialize in porcelain fillings and crowns... Gold inlays, bridge work and extracting. I will do no plate work.

By so doing I can give better service than to do all kinds of work. This is a day of specializing, which means one thing well done against a number poorly done.

Good looking teeth are a great aid to appearance as well as a wonderful asset to good health.

Porcelain fillings and porcelain crowns and late methods of bridge work afford an opportunity to have the teeth look natural as well as to have them cared for in the best possible manner.

MARKET ONLY GOOD STUFF

Stating that it does not pay the stock man to send poor stuff to the market these days, T. C. Benson of the Benson Commission Co., of Portland, throws out a word which reflects generally the system of buying and selling under present conditions.

"My advice to the raiser of cattle these days is to keep everything that is not in the best of condition," says Mr. Benson. "This applies especially to young unfinished stuff which should by no means be shipped in."

"The best prices and the readiest market are always for the better breeds and better finished but this is especially true these days. We come nearer getting what stuff is worth and what it should bring with less delay under those conditions."

The Benson Commission Co. is typical of the business that is being handled through North Portland these days. In the month of June they handled 130 carloads of stock and expect to handle even more in the next few months.

HELD ITEMS

(By our Regular Correspondent.)
S. D. Kennedy and family spent last Sunday with Mrs. E. J. Clarke and family.

Mr. and Mrs. J. T. Bryson were at Held postoffice last Sunday evening. Carl Settemeyer, who was injured is improving.

The ranchers of this vicinity are busy with haying.

Mrs. E. T. Stetson of the Mowry Mill came to Held yesterday and took the Dry Lake stage for Pringle Flat.

Tom Rickman killed a beef Thursday evening. S. D. Kennedy is working for Alex Rickman on his ranch on Bear creek.

—W. S. S.—

BARNES ITEMS

(By our Regular Correspondent.)

Every one is busy haying, weather cloudy and winds high.

Mrs. M. E. Bennett had the misfortune to lose a valuable pig and a fine Jersey milk cow last week.

The Fourth of July celebration was a great success at the Dry Lake hall. A large crowd attended and all had a pleasant time. The money taken in was donated to the Red Cross, which was a large sum. The quilt raffled off was finally bought by Lew Bennett for \$18 and a sofa pillow donated by Grandma Bennett was also sold for \$4. Both quilt and pillow were sold before at 25c a chance for the quilt and 10c for the pillow. They brought over \$100. They were both drawn by Mr. Alexander, who immediately raffled them off again.

Max Gross passed through here on his way to Harney valley for work in haying.

Mr. Cornett of Prineville brought a binder from that place to the Tackman ranch near Barnes.

O. I. Davidson and family are again at the 96. Old friends were glad to welcome them home and it seems like old times around the 96 these days.

Mrs. Anna Campbell and daughter Mary were visitors at the postoffice Friday.

Frank Long is doing carpenter work at the postoffice this week.

K. P. Thurston and family have recently returned home after a brief visit in Prineville.

Dorothea Hackleman is home after a short visit in the Held district.

Grandma Bennett had the misfortune to lose a nice Jersey cow last week.

—W. S. S.—

POWELL BUTTE NEWS

(By our Regular Correspondent)

The dry land farmers report that their rye is filling out quite well and will make an average crop in spite of drouth. The wheat, however, needs rain or grave fears are felt that it will not mature enough to thresh.

S. E. Lochrie of Brothers was in this section last week renting pasture and engaging straw with a view to wintering a large bunch of cattle at Powell Butte.

E. M. Hall returned from Portland last week. He was accompanied by his brother, Rodney Hall, of Portland, who visited a few days with Mr. Hall and his sister, Mrs. Reeves Wilcoxen. He returned to Portland much impressed with this part of Central Oregon.

E. L. Iverson has bought a forty north of the land he now owns and will build a home and move onto it. Mr. Iverson recently leased in home here to E. H. Stewart, because the work was too heavy for Mr. Iverson. But after trying town life awhile he is building a smaller home with less work where they will make their permanent home.

The recent hail storm did some damage in this section: killed quite a number of baby chicks for Mrs. Edward Williams, knocked down some grain and alfalfa. But the storm did not strike as heavy here as down in the Crooked river country, where it ruined whole fields of grain.

Powell Butte Red Cross has adjourned for the summer, as the women are all busy with home work. Some are making regular hands in the hay fields, while others are busy with the cooking and canning.

Bert Reynolds the original "Pinkie" is pitching hay for Stewart and Hall. Bert makes a good hand in the hay field as he does as "counter jumper" or "auctioneer."

Fred Brown received quite painful burns on the legs recently while filling his gas tank at Bend. Someone carelessly struck a match which resulted in an explosion. Joe Shearer is riding ditch while Fred is laid up for repairs.

Mrs. Geo. Shobert is visiting at the home of her daughter, Mrs. Melvin Foster at Redmond.

Mr. and Mrs. Arch Powell and daughter of Prineville and Mrs. Anna Todd of Portland, and Mrs. Belle Wood of John Day, were visitors at the C. M. Charlton home Sunday.

—W. S. S.—

Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.

MADRAS, OREGON

The Valve-in-head-type engine illustrated here, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

ZEROLENE

The Standard Oil for Motor Cars

It Keeps the Engine Young!

Zerolene keeps the engine young—full-powered, smooth-running, and economical in fuel and oil consumption—because it is correctly refined from selected California asphalt-base crude. Gives better lubrication with less carbon. Made in several consistencies. Get our Correct Lubrication Chart covering your car.

At dealers everywhere and Standard Oil Service Stations.
