THE TRAGEDY OF IT!

With less supplies than they actually needed, too few guns, not enough ammunition, a shortage of provisions, the allied armies have twice been driven back by the Hun hordes and many lives lost, much territory that has cost thousands of lives to regain, and actual danger of victory by the nation that would conquer all free nations of the earth.

Given equal supplies and support of the people at home, and there is no comparison of the quality of the allied soldier, the American soldier, if you please, and the Hun.

Victory will come to our boys to be sure, but just how soon depends upon the system on which their ammunition is sent over to them, the regularity of the shipments of white bread and other staples into the trenches where the actual fighting is done, the supply of shipping, the thousands of things that have been so perfectly and handsomely provided by our government and our people.

Will these supplies pause in their steady stream to the front? On the severing of the arteries of supply depends the lives of Americans by the hundreds of thousands. The stream will continue without any doubt, just so long as the source of supply is kept replenished and no longer.

This is done with money, billions of dollars of it. How is it secured? Two methods, one is by the sale of securities, of which the Fourth Liberty Loan is a part and for which a campaign is just now on, and to which, if you are a loyal American you will subscribe, and the other by direct taxation.

The purchase of bonds, and baby bonds, commonly called War Savings Stamps, is a voluntary matter, and is a thing for which no American is entitled to great credit.

To replenish our armies men are conscripted; to fill the ranks in our army of dollars the government has chosen the method of volunteers. That is the only difference, and that alone should make everyone subscribe.

of nine soldiers and buglers, train officials, speakers, attendants, machinists and electricians. This is the greatest exhibition that has ever come to the Pacific coast and everyone who possibly can should see it. It gives one an idea of what Liberty Bonds are helping to accomplish, and brings home the war as nothing else can do.

The Choice of Those Who Know
Manufacturers and leading motor car distributors recommend ZEROLENE. The majority of motorists use ZEROLENE. ZEROLENE reduces wear and gives more power because it keeps its lubricating body at cylinder heat. Gives less carbon because, being refined from selected California asphalt-base crude, it burns clean and goes out with exhaust.
ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

Correct Lubrication for the "V"-Type Engine
This, the "V"-Type of automobile engine, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. Zerolene fills these requirements perfectly because it is correctly refined from selected California asphalt-base crude.
