### THE MAN WITHOUT A COUNTRY

The story in "The Man Without a Country" is based upon the great classic of Edward Everett Hale, but the story goes beyond a recital of the career of the man who lost his country through his treachery, and brings besides, a story that belongs to the present hour—the story of a pacifist who cursed the United States when it went to war, and of how the vision of "The Man Without a Country" re-awakened in his heart the flame of patriotism and would not let him rest until he had donned khaki and entered the ranks of the fighters for the freedom of the world.
