# GO OVER THE TOP

## With EMPEY (Himself)

IN VITAGRAPH'S MARVELOUS PHOTOPLAY OF EMPEY'S WORLD FAMOUS BOOK

Here Is Your Chance to Get Into The Fight Yourself

All of us can't go to the firing line, but the marvel of motion pictures makes it possible for all of us to be with our boys in spirit and to share their thrills and fights with them. Empey's "Over the Top" is being read by the millions because it is the most human document ever written by a fighting man. How much greater even is your opportunity to see the living, breathing pages of this greatest of all trench stories brought into action by the wonder of the motion picture camera.

Come on, all loyal Americans—here is your chance—get into the fight with Empey himself.

The Greatest Production in the History of Motion Pictures

Vitagraph has spared nothing in making "Over the Top" the tremendous production the subject so richly deserves. Lois Meredith, James Morrison and a host of other screen favorites make up an all-star cast in support of the "Fighting Sergeant." Every modern innovation in motion picture making, vast numbers of actors and actresses, many hundreds of trained American soldiers and aviators—all have been assembled by Vitagraph for the making of "Over the Top."

As a photo production alone, "Over the Top" is a supreme achievement, but in addition it is one of the most thrilling, intensely dramatic, deeply human stories ever screened.
