WHY THE PUBLIC MUST DO ITS SHARE

If the "home papers" are to be sent to all our soldiers and sailors and others, men and women, engaged in war work abroad, this must be done by the public generally or by interested parties in each community.

The ruling of the War Industries Board in reference to daily newspapers, published August 8, says:

"Copies may be sent free to former employees who are in the war service and copies may be sent free to libraries of institutions recognized by the Government, such as the Red Cross, Y. M. C. A., K. of C., etc. Copies should not be sent to individual soldiers unless formerly employed by the newspaper."

The ruling of the War Industries Board in reference to country weekly papers, published August 23, provides:

"No publisher may give free copies of his paper except for actual service rendered and except to the camp libraries and hospitals or cantines of organizations recognized by the Government etc. * * *

"No publisher shall send his publication to anyone below the public subscription price."

It will thus be seen that all newspapers which heretofore have been sending free copies to the soldiers abroad and all newspapers that have been contributing a portion of their subscription price in order that the public might be encouraged to send the newspapers to soldiers, will have to discontinue those practices.

In other words, if the soldiers are to have their "home papers" of which they stand so much in need and which give them so much delight and comfort, the people will have to supply the money for the full paid subscriptions.

The newspaper has no option in the matter, in view of the very businesslike ruling of the War Industries Board, which is seeking to prevent any consumption of print paper without an adequate return therefor.

If the public will respond with prompt donations for sending the papers, every boy from Crook county will in time receive his "home paper."

JOHN COMBS FOR SHERIFF

In this age, when the nation itself is founded on the basis of efficiency, and every man is carefully measured for his qualifications for every position, it is well for the voters to examine into the experience and ability of each candidate for office.

John Combs has had ten years' experience in the office of sheriff in this county, four as sheriff and six as deputy.

During this period his competency as an executive officer was never questioned, and his able management of the collection of the tax rolls was over with a view to safeguarding the interests of the taxpayer. When the voters have an opportunity to place a man with 100 per cent. efficiency at the head of any of its departments especially the important office of sheriff they should carefully consider the qualifications and administrative ability of John Combs. His record on law enforcement, and his pledge in this regard is a guarantee of a clean and able administration of the office. Paid Adv.

Mr. Cram expects to be called in the next draft, to the Benson Polytechnic at Portland, and Mrs. Cram will remain here until after the war.

MUST SEE THE MOVIES

Redmond and Prineville have benefited through the closing order in Bend which made moving pictures impossible. Several auto loads of people leave practically every night for these cities to attend the picture shows there.—Bend Bulletin, Oct. 22.
