**"CARRY ON," IS OFFICIAL CRY**

The caution issued recently in Portland by James F. Pershing, brother of General Pershing, against relaxation of war work activities, has been echoed in messages issued by departmental heads in Washington, D. C., copies of which were sent to Executive Secretary John Kollock, of the Oregon State Council of Defense. "Carry on" is the theme of those telegrams, whose senders felt the German peace proposals might interfere with campaign plans just formulated. Consequently, the United War Work drive, which opens November 11, will be conducted with even more vigor than had Germany not sought to bring about peace on her own terms. The departmental heads, as well as Mr. Pershing, emphasize the need of continued activities by the several affiliated organizations participating in the drive, even after hostilities have ceased.

**Do You Think There is No Competition?**

If anyone thinks there is no competition amongst the big packers he ought to go through a day's work with Swift & Company.

Let him begin at the pens when the live stock comes in; let him try to buy a nice bunch of fat steers quietly and at his own price without somebody's bidding against him.

Let him realize the scrupulous care taken at the plant that not one thing is lost or wasted in order that costs may be held to a minimum.

Let him go up into the office where market reports are coming in,—and reports of what other concerns are doing.

Let him watch the director of the Swift Refrigerator fleet, maneuvering it over the face of the country like a fleet of battleships at sea.

Let him take a trip with a Swift & Company salesman and try to sell a few orders of meat.

Let him stay at a branch house for an hour or two and see the retail meat dealers drive their bargains to the last penny as they shop around among the packers' branch houses, the wholesale dealers, and the local packing plants.

And then, when the day is over, let him have half an hour in the accounting department, where he can see for himself on what small profits the business is done. (Less than 4 cents on each dollar of sales.)

If he still thinks there is no competition in the meat business it will be because he wants to think so.
