Feels like Velvet,  
Wears like Iron

The "VAC" a Special  
Quality  
"Ball-Band" Boot

Everywhere—where boots get unusual wear—on Farms, in Mines, Forests, Quarries, Dairies, Fisheries and Canneries, Creameries. Construction work—the "VAC" Boots have been tested and found superior. They are adapted to all the trying conditions of various kinds of labor where boots get rough wear, and provide more comfort and greater service than any other boot manufactured. "VAC" Boots are built by master workmen who use the most carefully selected materials. They are then cured or vulcanized by the VACUUM PROCESS, under differential pressure, to join the gum, inner fabrics and sole together, producing a firm, solid boot that is sturdy, pliable, and comfortable. Look for the Red Ball and the name "VAC"

**LIGHTER WEIGHT WITH LONGER LIFE —AND EXTENSION SOLES**  
"Ball Band" Boots and shoes are the only ones made with Extension soles, the greatest recent improvement in rubber footwear. The extra thick sole protects the foot from sharp pebbles and rocks. The sole is extra wide to ward off hard knocks and snags. All "Ball Band" Extension sole Boots and Shoes are Special Quality and vulcanized by a Special Process. They have won the hearty favor of thousands of men who work in mines, quarries, or on wet cement floors. There is no firmer sturdier, tougher, longer-wearing footwear made. For all kind of the hardest wear this is the cheapest rubber footwear you can buy. It wears so long that it costs the least per day's wear. The Red Ball is the trade mark to look for.

## Ross R. Robinson

## Mr. Woodchopper:

We have looked over our stock of Axes, Saws, Mauls & Wedges. We still have some of the stock purchased from Claypool & Company, which stock is now priced below the present wholesale price.

We carry the most complete line of STANLEY TOOLS in the city. Every tool is guaranteed by the makers, who have been manufacturing Carpenters' and Mechanics' tools for over half a century.
