SPRUCE WORK TO STOP SOON

Portland, Or.—As rapidly as possible the activities of the spruce production division of the United States army, operating in Oregon and Washington, will be brought to a complete stop, following the termination of the war. The unwinding process will require from four to six months, in the opinion of Brigadier General Brice P. Disque.

Approximately 30,000 officers and enlisted men will be affected by the order of demobilization.

The war department will not underse the market in disposing of the vast quantities of spruce logs and lumber on hand and no longer needed for airplane construction. According to General Disque the same policy will be followed in auctioning the logging railways, equipment for logging camps and sawmills and the millions of dollars worth of other property accumulated in carrying through the government's program of producing airplane material for the United States and the allies to win the war.

"There will be no sacrifice sales of any of this property," said General Disque. "If the government cannot get the reasonable worth of the property it will be kept until the prices offered are right. I think we owe this to the forest products industry of Oregon and Washington and to the interests of the nation."

ALLIES FIND OPPOSITION

Plan Under Way for Volunteer Army for Russian Relief.

Archangel.—The American and entente troops have encountered strong opposition both on the Vologda-Archangel railway and on the Dvina river. Owing to the swampy condition of the terrain it has been necessary to confine operations to the waterway and the railway. As the upper part of the river is deeper than at its mouth, the Bolsheviki craft, equipped with large guns, have been better able to maneuver than the entente ships, and have prevented the occupation of Kotlas by the entente. A plan is under discussion in military circles for the creation of a voluntary army for Russian relief, should the allies agree upon a policy of feeding Russia.

Washington.—Investigation of the alleged disloyalty speech of Senator La Follette, at St. Paul, more than a year ago, was abandoned by the senate elections committee on a vote of 9 to 2.

AMERICAN TROOPS TO RETURN SOON

General Pershing Furnishes List of Those Selected to Sail for Home.

Washington.—Demobilization of the American expeditionary forces already in progress with the movement homeward of sick and wounded will be hastened by the receipt of an early date of eight divisions of national guard and national army troops, eight regiments of coast artillery and two brigades of field artillery.

This announcement was made by General March, chief of staff, on receipt of dispatches from General Pershing.

In addition the following general classes of troops will be returned: Railroad artillery troops, army artillery troops, gas troops, tank corps, air forces and those divisions which were broken up to be used as replacements for other divisions which had seen active service.

Troops returning immediately from England, General March said, will include practically all of the air squadrons, 16 construction companies, the sailmakers' detachment, one Handley-Page training station and several photographic and radio sections.

Secretary Baker supplemented General March's outline of demobilization plans later by stating that General Pershing was reducing his army to a strength of 30 divisions.

At an average strength of 50,000 men to a division, which would cover all necessary auxiliary forces, this would mean that General Pershing would retain 1,200,000 men in France.

The American forces in France, General March said, had taken 44,000 German prisoners, in round numbers, and 1400 guns. He added that the casualties among the American forces in northern Russia were not severe, contrary to reports, and that encouraging accounts of the situation of the forces there had been received.

WILLIAM G. McADOO RESIGNS HIS OFFICE

Washington.—William G. McAdoo has resigned office as secretary of the treasury and director general of railroads, to leave the treasury on the appointment of a successor and the railroad administration on January 1 next. It was announced that he had asked President Wilson to relieve him now that the war is over so that he might return to private business after six years in office.

President Wilson has acceded to Mr. McAdoo's request and accepted his resignation.

Retirement was made necessary, Mr. McAdoo said, because of "inadequate compensation" allowed cabinet officers.

The secretary also explained that he is seriously in need of rest, although there is no actual impairment of his health.

The secretary plans to take about three months' rest and then may resume the practice of law in New York.

CONSTRUCTION BAN LIFTED

Government Removes All Wartime Restrictions on Building Operations.

Washington.—Removal of all remaining restrictions on non-war construction by the war industries board was announced by Chairman Baruch.

All building operations of whatever character may now be proceeded with without permits either from the board or the state councils of defense.

This action was taken, Chairman Baruch said, on recommendation of the building industry and the state councils of defense. The councils had been co-operating with the war industries board in passing upon applications for building permits.

Officials expect that resumption of work will afford employment for thousands of workmen now being released from war industries.

Total American Casualties Reported.

Washington.—Total casualties of the American expeditionary forces up to the signing of the armistice were divided as follows: Killed and died of wounds, 36,154; died of disease, 14,811; died from other causes, 2204; wounded, 179,623; prisoners, 2163; missing, 1160.

Wilson Signs Bill; Prohibition Clause.

Washington.—President Wilson has signed the emergency agricultural appropriation bill with its legislative rider providing for national prohibition from next July 1 until the American army is demobilized.

Heber Grant Mormon Church Head. Salt Lake City.—Heber J. Grant was unanimously sustained as president of the Mormon church to succeed the late Joseph E. Smith, at a meeting of the council of the Twelve Apostles.

Americans Enter Brussels With King.

With the British Army of Occupation.—American soldiers headed the procession of troops which entered Brussels with King Albert. One battalion of fine looking fellows from the 91st Division, which comes from the coast states, was followed by a battery of artillery from the 53d Brigade. No finer troops marched through Brussels than the Yankees, and none, except perhaps the Belgians, were given a heartier reception. These boys are fresh from the battlefields, for they are the troops which fought so brilliantly in the drive for Audenarde just before the armistice was signed.

\$31,000 in Bullion Missing from Liner.
