Sid Rogers was riding on the creek last week.

K. D. Houston is up from Prineville to his stock farm at the head of the river.

A BETHLEHEM PAGENAT

The story of the birth of Jesus will be told in a unique manner at the Presbyterian church this year. By means of a scenic background the audience will find themselves on the outskirts of Bethlehem not many days after the Nativity. A group of boys and girls from the city will meet them there. Then the Shepherds and the keeper of the village Inn and the strange Wise Men from the East will come and each will add his part to the beautiful old story, that never meant as much to the world as it

does this year. The little folks will introduce the Pagenat with a short program of recitations and songs commencing promptly at 7:30.

LOST—A roan Durham bull, coming two-year-old. Branded Rafter N on left hip. Notify H. W. Neal,

Prineville, Ore., Box 192 615p

THE ART SHOP

F. E. LAFLER, Proprietor.

The Farmer Receives More Than Five Thousand Dollars a Minute From Swift & Company

This amount is paid to the farmer for live stock, by Swift & Company alone, during the trading hours of every business day.

All this money is paid to the farmer through the open market in competition with large and small packers, shippers, speculators and dealers.

The farmer, feeder, or shipper receives every cent of this money (\$300,000 an hour, nearly \$2,000,000 a day, \$11,500,000 a week) in cash, on the spot, as soon as the stock he has just sold is weighed up.

Some of the money paid to the farmer during a single day comes back to the company in a month from sale of products; much does not come back for sixty or ninety days or more. But the next day Swift & Company, to meet the demands made by its customers, must pay out another \$2,000,000 or so, and at the present high price levels keeps over \$250,000,000 continuously tied up in goods on the way to market and in bills owed to the company.

This gives an idea of the volume of the Swift & Company business and the requirements of financing it. Only by doing a large business can this company turn live stock into meat and by-products at the lowest possible cost, prevent waste, operate refrigerator cars, distribute to retailers in all parts of the country—and be recompensed with a profit of only a fraction of a cent a pound—a profit too small to have any noticeable effect on the price of meat or live stock.

Swift & Company, U. S. A.
