Washington, D. C. (Special.)—According to a report made to the United States Public Health Service, the epidemic of influenza in Spain has already caused an increase in the prevalence and deaths from pulmonary tuberculosis. A similar association between influenza and tuberculosis was recently made by Sir Arthur Newsholme, the chief medical officer of the English public health service, in his analysis of the tuberculosis death rate in England.

In order that the people of the United States may profit by the experience of other countries Surgeon General Rupert Blue of the United States Public Health Service has just issued a warning emphasizing the need of special precautions at the present time. "Experience seems to indicate," says the Surgeon General, "that persons whose resistance has been weakened by an attack of influenza are peculiarly susceptible to tuberculosis. With millions of its people recently affected with influenza this country now offers conditions favoring the spread of tuberculosis."

AJAX TIRES

GUARANTEED IN WRITING 5000 MILES

"More Tread on the Road"

HERE is the Ajax Road King—master mile-maker of them all. The tire for endurance and abuse on all roads in any weather. Made doubly strong where the road strain comes. It has more tread on the road—more rubber where it should be—more grip to grip with—because of the special patented feature—

Ajax Shoulders of Strength

These rugged supporting shoulders of the tread mean longer wear. They cushion against shocks. Shoulders of Strength distribute road wear evenly. It cannot come in one spot and quickly grind through to the fabric.

97% Owners' Choice

This big percentage of all Ajax Tires goes to individual motorists who select them to take the place of tires that came with their cars. See them here at the Ajax Tire Supply Depot, headquarters for Ajax Tires and Tubes.
