COUNT BENTINCK

Count Bentinck, who gave his friend, the kaiser, shelter in his castle at Amerongen, Holland.

VIOLATION OF PACT BY STRIKERS ALLEGED

Philadelphia.—Charles Piez, director-general of the Emergency Fleet corporation, authorized a statement in regard to the strike of shipyard workers on the Pacific coast, in which he said in part:

"The strike is a direct violation of a solemn contract entered into by the American Federation of Labor, representing the shipyard workers, the United States navy and the United States Shipping Board Emergency Fleet corporation. The men involved in the strike should realize that the emergency of war is past and that the need of ships is not as great as while the war was in progress.

"The increasing cost of shipbuilding in America, influenced largely by the constantly increasing labor cost, threatens the very future of the industry in this country unless the output is brought proportionally up to the elevated wage scale.

"It is inconceivable that American workmen would deliberately jeopardize their own interests, the interests of their communities and the interests of the nation by breaking an agreement. I cannot believe they understand the situation.

"The Emergency Fleet corporation, as trustee of the money of the people of the United States, cannot compromise a vital moral principle. It is bound by an agreement with the shipyard workers throughout the country which is irrevocable, except through modification by mutual consent."
