T. L. Quinn, manager of the Oregon Life Insurance business in this territory, has returned from Portland. While away, Tom took unto himself a wife, formerly Miss Frieda Stumpe. She will soon be here where they will set up housekeeping.

Miss Oza Myers finished a very successful term of school at Rye Grass Saturday and after spending a few days at her home here, she will go to Hay Creek, where she will teach two months and from there to Bellingham, Washington, to attend Normal School.

E. E. Laughlin and wife, George and Charles Laughlin, Z. Behenden and wife, P. R. Barnhouse and wife, Clay Shown and wife, all of Mitchell and C. Barnard, Frank Lee, Al Connelly and Fred Edwards all of Fossil, passed through Prineville Monday en route to the Stockmen's convention at Bend Tuesday and Wednesday. There was so much snow on the mountains yet that they had to come around by way of Ashwood and Madras to get out.

ELKS TO ORGANIZE A CENTRAL OREGON LODGE

An Elks lodge will be organized in Bend for Deschutes, Crook, Jefferson and Lake counties in the near future. The charter list will include 58 names and the lodge will be working during the next sixty days.

OREGON MOTHERS FACE TASK

Dr. Louise Richter will be a big factor in helping the women of Prineville in the fight against the social evil in Oregon, when she speaks to the women and girls of the city on Friday, May 2, at 2:30 p. m. at the Lyric Theater. There are very few persons in

Oregon who do not know of the splendid health record of this state. In the first million draftees, while the average state sent thirty venereal diseased men per thousand, Oregon sent less than six per thousand.

This wonderful record has been made possible by the splendid cooperation of the people of Oregon during the past seven years in educational propaganda for clean young manhood and young womanhood.

But with our pride comes a sense of duty—the duty to keep Oregon in the proud position she holds—to keep her standing as a beacon to the rest of the world in its struggle for clean living.

The Federal Government and other states are now realizing the terrible drain upon economic resources, health and morals resulting from the social evil and they are taking up the fight against its ravages. Oregon must continue to show them the way and it is upon the mothers of the state that this duty principally falls.

We must, if we are to continue the fight effectively, have an educated parenthood to give to the young the information that every boy and girl should have. One generation of parents knowing their duty and having the confidence of their children would do much to eliminate the red plague from our state.

It is hoped that every mother and every woman interested in understanding herself or her children will hear Dr. Richter while she is here.

Dr. Richter is a physician with twenty-three years' practice. She has been especially prepared by the War Department to bring her message to women and girls and she speaks under the auspices of the Oregon Social Hygiene Society.

There will be no admission charge to the lecture and no collection will be taken.

WITH THE EXCHANGES

J. H. Stanley, formerly of Bend, and for years a prominent stockman of this section, died on Monday afternoon at his home in Seattle, according to a message received here last evening. He had been in poor health for some time, and since last January had been confined to his bed. His widow is now on the way with the body to Chippewa Falls, Wisconsin, his former home, and will arrive Friday morning. Funeral services are expected to be held the same day.—Bend Bulletin.

W. W. Brown, wealthy stockman of Fife, won a victory in the case brought against him by Charles J. Stauffer for alleged malicious prosecution, when the jury after nine hours' absence from the court room, returned a sealed verdict at 3 o'clock this morning. HIGH SCHOOL

WSS NEWS NOTES WSS

Mr. and Mrs. H. Ward Noble, of Quincy, Michigan, are visiting with their daughter, Mrs. E. E. Evans, at 427 East 3rd Street.

Mr. Evans went fishing last Monday in the Ochoco. He claims to have caught six trout, two of them being fourteen inches long, and the total quantity would feed a large boarding house clientele. Of course this may be subjected to a discount of 50-25-15 and 10 per cent, but the fact still remains that it sounds like a good fish story. This week closed the six week per-

iod and the cards are being handed out both students and faculty seem to be satisfied with the grades.

Prof. O'Reilly of O. A. C. addressed the students Tuesday on Club Work. He is always a welcome visitor at the school.

The attendance is back to normal again. The epidemic of la grippe has been ousted and the healthy young people of the school have come out ahead.

Miss Anderson, who has been ill from a severe attack of grippe is able to be back at her desk again.
