"WHERE IT PAYS TO TRADE"

GOVERNORS TO HELP IN WAR ON PRICES

Government Promised State Co-operation at Meeting of Executives.

Washington.—New impetus was given the government's campaign to reduce the cost of living at conferences here, which assured the closest co-operation between federal and state authorities.

Six governors, Gardner, Missouri; Milliken, Maine; Burnquist, Minnesota; Campbell, Arizona; Sprout, Pennsylvania, and Cooper, South Carolina, and Lieutenant-Governor McDowell of Montana, representing the national conference of governors, spent several hours studying the situation with Attorney-General Palmer and then called at the White House to offer President Wilson the full machinery of the states in the effort to restore a normal price level. With the far-reaching state organizations carrying the message of economy and increased production into every county and aiding the federal authorities in bringing to justice the hoarders and profiteers, officials believed excellent results could be obtained in the next 90 days, which would avert the menace of transportation strikes to obtain higher wages.

"After our meetings with the president and the attorney general, the committee of governors announced, 'certain facts are clear:

"1—That all the people of the nation and all organizations should immediately co-operate for the purpose of increasing the production of the necessities of life.

"2—That economy in consumption and care in purchasing the necessities of life are equally important with production.

"3—That every agency of the federal and state governments should co-operate forthwith to prevent profiteering.

"The attorney-general has assured us that he will pursue under existing and proposed laws all profiteers."

The suggestion of the attorney-general that a fair-price commissioner be appointed in each of the states and fair-price commissions in the different localities of the states, upon the nomination of the governors was endorsed.

PRESIDENT TO CALL WAGE CONFERENCE

Washington.—President Wilson, in a Labor day message to American workers, announced that he would call in the near future a conference of representatives of labor and industry to discuss fundamental means of bettering the whole relationship of capital and labor and putting the whole question of wages upon another footing.

The president said he was encouraged and pleased with the results thus far of the government's efforts to bring down the cost of living and expressed confidence that substantial results would be achieved in the solving of this problem.

Presumably referring to the existing labor unrest and threats of strikes, the president appealed to every citizen to refrain from doing anything that would tend to increase the cost of living, but instead to do all possible to promote production.

The president expressed particular gratification at the attitude taken by the representatives of organized labor in supporting the government's programme to meet requests for increases through a lowering of living costs and said he hoped that the workers themselves would "move with the government instead of against it in the solution of this great domestic problem."

LANE WANTS CONFERENCE

Secretary Suggests Capital, Labor and Public Get Together.

Washington.—President Wilson should call a conference of representatives of capital, labor, industrial managers and the public to meet in Washington in the near future to discuss perplexing economic problems confronting the nation, Secretary of the Interior Lane declared in a statement.

Heretofore, only capital and labor have been considered in discussions of vital economic questions, he asserted, but the time has come when the public must be given a voice as well as the business managers and executives who are "the brains of modern industrial organizations."

Noted Boer General Dead.

Pretoria, Union of South Africa.—General Louis Botha, premier and minister of agriculture of the Union of South Africa, died suddenly following an attack of influenza.

Cardinal Mercier Sails For U. S.

Brussels.—Cardinal Mercier sailed from Brest September 2, aboard the United States transport Agamemnon, for America.

Miss Rose Rothenberg, the first woman appointed assistant district attorney in New York.

REDUCTIONS MUST BE PASSED TO CONSUMER

Washington.—Unless reductions in wholesale prices resulting from sharp breaks on the produce markets are passed on to the consumer vigorous punitive action will be taken by the department of justice.

Officials said the lower wholesale prices should be reflected on the retail market in the near future.

Profiteering in sugar virtually has ceased, according to Judge Ames, assistant to the attorney general, in charge of administering the food-control law. Eleven cents, he said, is now accepted as the just price by dealers throughout the country.

A bill to carry out one of President Wilson's recommendations for reducing the cost of living—price-marking of merchandise—was introduced by Senator Jones, republican, Washington, and referred to the senate interstate commerce committee. It will provide a fine and one year's imprisonment.

Fairbanks Morse Quality— Very Low Price

This 40 light "F" plant comes to you completely mounted on one base. The power plant is the famous "Z" Engine which can also be used to furnish power for washing machine, churn, cream separator, etc., independent of the dynamo, either direct or through a line shaft.

Low speed engine and ball bearing dynamo assure long life, less attention, and lowest possible maintenance cost. Touch a button to start and another to stop. See this wonderfully efficient plant and let us explain all the details.
