FLEET IS REVIEWED AT SAN FRANCISCO

San Francisco.—Patriotic enthusiasm gripped San Francisco Monday when the great Pacific fleet entered San Francisco bay.

Hundreds of thousands of persons—residents and visitors—watched the entrance of the fleet into the harbor and its review, either from launches and yachts or from Marina, Telegraph Hill, Land's End, and a score of other vantage points.

From Bolinas bay Monday morning at a signal from the dreadnought New Mexico, flagship of Admiral Hugh Rodman, commander in chief of the fleet, the long line of ships started for the Golden Gate.

Admiral Rodman himself, on the bridge of the New Mexico, piloted the fleet through Bonita channel and down the bay past the famous old battleship Oregon, from which Secretary Daniels reviewed the ships.

SHOPMEN GIVE 90 DAYS

Strike Vote to Be Called if Cost of Living Stays Up.

Washington.—Industrial peace in the United States, according to the executive council of the railroad shop crafts, depends on the results the government can show in the next 90 days in its campaign to reduce the cost of living.

That time limit was tacitly set out by the executive council in suggesting to union locals throughout the country that President Wilson's compromise offer in response to their demands for higher wages should be accepted pending the outcome of the effort to restore a normal price level.

If the cost of living does not come down the 500,000 members of the shop crafts would reserve the right to strike for more money and with them probably would be associated the remainder of the 2,500,000 railroad employes, all of whom have been considering the same problem.

Bryan Urges Buying of Railroad Lines.

Washington.—William Jennings Bryan, former secretary of state, appeared before the house interstate and foreign commerce committee, and urged that the government purchase all railroad trunk lines, the state purchase the branch lines, and that a co-operative plan for their operation be put into effect.
