"Get this straight"
 says the Good Judge

The tobacco that gives you the most lasting chew is the kind that saves you money. You don't have to take so many fresh chews. The rich tobacco taste stays right with it. That's why you take a smaller chew.

THE REAL TOBACCO CHEW

put up in two styles

RIGHT CUT is a short-cut tobacco

WEST SAVED
\$100,000,000 IN
WAR STAMPS

People of Pacific Slope Have
 Loaned Government Huge
 Sum Since 1918

San Francisco—Nearly \$100,000,000 worth of War Savings and Thrift Stamps have been sold by the government in the Twelfth Federal Reserve District since Uncle Sam opened his thrift campaign in 1918 to help finance the war. "In other words," said Robert E. Smith, director of the War Loan Organization in the Twelfth District, "the people of California, Oregon, Washington, Idaho, Nevada, Utah and part of Arizona have added that much to the working capital of the nation and the West out of their savings, not to mention the tremendous sum they have saved by purchasing Liberty Bonds."

Of course many persons who bought Thrift and War Savings Stamps have cashed in their securities with amazing shortsightedness, but the wiser purchasers are holding their stamps until they maintain their full maturity value. "Those persons who have cashed in their War Stamps or their Liberty Bonds and have spent the money have lost twice the amount they saved because, no matter what they bought, they paid nearly twice as much for it as they would have paid less than five years from now," said Smith. "Prices have risen more than 100 per cent since 1914. They will drop at least 50 per cent in the next few years and will eventually get back to the 1914 level. Now is the time to save."

Smith, who is a successful financier, said: "We have high prices because of the expansion of credit and consequent inflation. We won't have low prices until the people contract the currency by saving." Save by investing in government securities.

W.S.S.
 The "Biblers."

The Czech-Slovaks, having attained national independence, attain also the privilege of reading the Bible in the national tongue, so the British Bible society is planning to print Czech Bibles purchasable for 50 cents each. Austrians and Italians have long called the Czech-Slovaks "Biblers." The Czech Bible was first printed in 1475, but when the Czechs came under Austria the printing and reading of the Bible in their own language was forbidden. Copies of the Czech Bible were printed in other lands and smuggled in, but were burned if discovered. Religious persecution, dating back to the time of John Huss, the Bohemian reformer of the fifteenth century, combined with political persecution to make the Czech Bible rare, but all the more highly valued. Although, in modern days, the Austrian government permitted the circulation of the Czech Bible in the army, it continued to prohibit the circulation among the Czechs at home.

Americans Eat Little Mutton.

In Great Britain about 22 per cent of all meat consumed is mutton. In France it is about 11 per cent. In Canada it is not quite 7, and in the United States is only about 3 1/2 per cent. Last year (1918) the consumption of dressed meat (lard excluded) in the United States averaged 150 pounds per person, of which only 5 were mutton and lamb.

The British, the Canadians, and the French—all similar types of people and having habits of life similar to Americans—use less meat than Americans do, but a much larger proportion comes from sheep. The United States gets its meat principally from cattle and hogs. Pork consumption is about 14 times, and beef consumption about 13 times, as great as our use of mutton and lamb. These are the annual averages for last year.

AMERICA'S LOW PERCENTAGE

Only 12 Per Cent of Present Mileage
 is Improved—Little Built for
 Heavy Traffic.

The American public, though fast becoming awakened to advantages to be enjoyed by improved roads, may not realize the immense effort which must be exerted to catch up with European nations' highway systems. When Germany entered the war in 1914, Prussia alone had 75,000 miles of hard-surfaced highways. In proportion to the size of the two countries, the United States would need to have 1,611,914 miles. The present road mileage in the states is 2,500,000, of which 12 per cent is improved and only one-quarter of 1 per cent constructed for heavy traffic.

GETTING RID OF ROAD TAR

Must Be Attended To Promptly or
 Unsightly Streaks and Spots Will
 Be the Result.

Unless washed off promptly with soap and water, road tar will quickly harden on a car, leaving unsightly streaks and spots. There are several good ways of removing it, however. One consists in the application of butter or oleomargarine which will soften the tar without injuring the varnish. Another good solvent is cocoa butter, which is used in the theatrical profession for removing grease paint. This can be purchased at drug stores, and is a harmless solvent of all kinds of oil and grease, as well as tar.

CURE FOR SLIPPING CLUTCH

When Fuller's Earth is Not Available
 Borax May Be Used With Satisfactory Results.

When slipping develops in the clutch of the cone type it is usually caused by oil on the leather facing. The usual method of curing this trouble is to sprinkle fuller's earth on the leather, but if this powder happens not to be available borax may be used with satisfactory results, and in the absence of either the carbide dust or lime residue from an acetylene generator will prove a good enough substitute.

THE PITH OF IT

President Wilson, in tackling the high cost of living said:

"Only by increasing production and by rigid economy and saving by the people can we hope for large decreases in the burdensome cost of living which now weighs us down."

Despite the fact that the Department of Justice is scurrying about investigating high prices and throwing profiteers in jail, the President's cure for high prices is the only one. He has with him in his opinion the best economists in America and Europe. It is most elementary economics that as long as the public persists in its spending "big" buying unnecessary and fastening upon industry a demand for more than industry can produce, exorbitant prices will prevail.

There is only one way out. That is the President's way. The people have got to save. In order to save they must do without high priced luxuries and live simply. They must invest their savings that the means of more and greater production may be accumulated.

Economists know that the Treasury Department is doing more than the Department of Justice is to bring down prices. The lowly Thrift Stamp and War Savings Stamp is the weapon. Buy them and hold them. Put them first on the family budget. They bring 4 per cent interest compounded every three months. Get the habit of buying them every pay day. They will solve your high cost of living problem.

W. S. S.

The price of a \$5 War Savings Stamp this month is \$4.21. Buy one every week.

Fairbanks Morse Quality—
Very Low Price

This 40 light "F" plant comes to you completely mounted on one base. The power plant is the famous "Z" Engine which can also be used to furnish power for washing machine, churn, cream separator, etc., independent of the dynamo, either direct or through a line shaft.

Low speed engine and ball bearing dynamo assure long life, less attention, and lowest possible maintenance cost. Touch a button to start and another to stop. See this wonderfully efficient plant and let us explain all the details.

PRINEVILLE, OREGON

— and from there we went to Japan"

Talk about adventures!

Men in the Navy come home with the kind of experiences that most chaps read of only in the books.

Here's your chance!

Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and "shove off".

What will you get out of it?

Just this:

A chance to rub elbows with foreign folks in strange parts of the world.

The chance for good honest work on shipboard—the kind of work that teaches you something real; the kind of work that puts

beef on your shoulders and hair on your chest.

You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.

You will have the kind of comradeship in travel that sailors know.

You will have regular pay, over and above your meals, lodging and your first uniform outfit—good stuff all of it.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

To any Father and Mother:—

In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts.

Shove off! -Join the U. S. Navy
