ONE MORE STEP NECESSARY

Portland made a most favorable excursion into Southern Oregon recently when a large party of business men visited the business men of the extreme south tier of counties and found much there to show them that the country is undergoing a development that will make Southern Oregon a valuable territory which in turn is being brought very near to Portland by the excellent highway system and the development of an already established air route, which will be augmented in so far as commerce is concerned by the building of the Strahorn railroad which was endorsed on this same excursion by the Portland interests represented in the party of visitors.

The action of our neighbors from the metropolis is most excellent. Lack of cooperation is due to failure of complete understanding.

Resources of the state are so vast and varied that the most complete cooperation will but partially develop them.

Portland interests have made an excellent step. Let them consider another. In Southern Oregon they found fruit, mines and timber par excellence. Central Oregon can and will be pleased to show them the best live stock country under the sun.

Our position is somewhat different from that of our more southern neighbors. We cannot go to San Francisco for our merchandise, albeit we were compelled to go there to float our first issue of Ochoco bonds, the sale of which was all but lost when a telegram was received from a Portland bank that not only would not purchase the bonds but warned against their purchase by the San Francisco house.

This and almost all other unfortunate circumstances are due to a lack of knowledge on the part of Portland interests.

No Prineville business man would think of letting a year go by without visiting his trade territory, yet many

of the heads of Portland jobbing houses are better versed on conditions in Chicago than they are in all interior Oregon. Many of them have never been east of the Cascades, except along the Columbia river in this state. The next trade excursion out of Portland should be into Central Oregon and should come to Prineville over the city's own railroad.

OMIGOSH!!

Let us not be one too charitable and give away all the good things to neighboring cities. Keep a few for Bend.—Bend Press.

LEGION MEN LOAD GUNS FOR SIBERIA

Seattle, Wash.—As the result of a final refusal by the members of the Seattle local of the International Longshoremen's union to handle the shipment of Russian mission rifles to be loaded on the shipping board steamship Delight for Vladivostok, Siberia, the International Stevedoring company assembled gangs of men not connected with the labor organization to put the rifles aboard the vessel.

The recruiting of two crews aggregating 60 men from employment headquarters of the American Legion Sunday was the signal for hundreds of longshoremen to assemble at the gates of pier 5. Six foot and mounted police officers stood guard at the dock all day, while other patrolmen were stationed on First avenue and at the street entrances near the dock. The assembled longshoremen at the pier assumed a threatening attitude while the ex-soldiers swung the rifle boxes from the pier aboard the steamer, but the presence of the police prevented any outbreak.

Did You Pay Your Account on the 1st?

Accounts are opened for your accommodation and with the understanding that they are to be paid on the first of each month.

A merchant must pay his wholesale bills on the first of each month or they are turned over to an attorney for collection. He needs this money which you owe him and is expecting you to keep your word. If you live at some distance from town, don't wait until you come to town. When you get your statement on the first of the month, mail your check to the merchant.

Prineville merchants went on a thirty day basis several months ago. If your account is not paid every 30 days, you are doing your merchant an injustice.

Being one of a series of display editorials, the purpose of which is to create a better understanding between the local merchants and the consumers.
