Washington. - Characterising strikes as "industrial barbarism," and declaring that "there is no place in this country either for industrial despotism or labor despotism," the senate committee which investigated the steel strike presented its report.

As a permanent preventive of strikes, which the committee concedes "are apparently the only way for labor to secure even its just demands if employers refuse to grant them," it is recommended that congress authorize the establishment of some such mediation agency with well defined powers as the recently dissolved war labor board.

"This board would have the power of compulsory investigation," the report adds, "but not to the extent of compulsory arbitration." The report was signed by Senator Kenyon of Iowa, chairman, and Senators Sterling, South Dakota; Phipps, Colorado, republicans, and McKellar, Tennessee, and Walsh, Massachusetts, democrats,

Holding the whip hand by a safe majority, the republican leaders swept aside every suggested modification and carried the reservation through exactly as approved by the foreign relations committee.

The final count was 50 to 35, and pairs announced for the absentees showed the entire senate membership to be divided, 55 to 41. Five democrats-Senators Reed (Missouri), Gore (Oklahoma), Smith (Georgia), Walsh (Massachusetts) and Chamberlain (Oregon)-voted in the affirmative, while Senator Shields, democrat (Tennessee) was paired in favor of the reservation.

The reservation, first of 14 proposed by the committee to carry out a programme which its sponsors say has been pledged to a safe majority throughout the reservations, provides: "The United States so understands and construes article 1 that in case of notice of withdrawal from the league of nations, as provided in said article. the United States shall be the sole judge as to whether all its international obligations and all its obligations under the said covenant have been
