**GRANGE DECLINES
 LABOR'S INVITATION**

Grand Rapids, Mich.—Through their representatives 600,000 American farmers and their wives declined to form an alliance with union labor. By an overwhelming vote the national grange in convention here, adopted, in reply to an invitation extended by Samuel Gompers for a conference, the following resolution:

"The national grange declines your invitation for a conference in Washington December 13."

The Gompers letter had been referred to a committee and after three days' discussion that body reported. Members declared that attendance at any such conference was fraught with peril to the grange. Few voices were heard in support of the invitation and these were from western members. It was brought out by opponents that there was nothing in common between the agricultural interests and organized labor. To attend the Washington meeting, it was declared, would be a tacit admission that there were mutual interests.

VICTORY MEDAL APPROVED

Secretary Baker Accepts New York Sculptor's Design.

Washington.—The design for the "Victory Medal," to be given to every American who took part in the world war, was approved by Secretary Baker. James E. Frazier, a New York sculptor, designed the medal, which will be of bronze, about the size of a silver dollar.

On the one side will be a figure of Victory with the inscription "The Great War for Civilization," and on the reverse side the names of the allied and associated powers.

Posse Closes In Upon Fugitive I. W. W.

Centralia, Wash.—Woodsmen and former service men left Centralia Sunday heavily armed to capture or exterminate Industrial Workers of the World, reported as holding out in a cabin in the timber country at the head of Hannaford valley, about twenty miles from this city. The body of John Haney of Tenino, and farmer and posseman, who fell last Saturday in a fight with the outlaws, lay Sunday within 100 yards of the cabin in which the bandits are reported to be sheltered.

To Reopen Pharaoh's Mines.
 Pharaoh's mines were discovered in 1812 by a French explorer named Callaud. He found that the mines had been abandoned before they had been completely exhausted. A lode of emerald-bearing rock was mined and the emeralds were found to be very large, but poor in quality. The mine was again abandoned. New plans to operate them on a tentative scale, at least, are now under way.

Observation of Off Belt Philosopher
 A scientist has just discovered the fish are intelligent. We had observed also that they don't bite on everything that comes along.—Baxter Citizen.

"There's a Brunswick Tire for Every Car"
