Name Events For Big Meet

Selection of officials and drawing up of a schedule of events for the annual tri-county meet to be held in Redmond Saturday, May 15, was completed recently at a meeting of the executive board of the Central Oregon School Day Association in Redmond. J. Alton Thompson of Bend, president, Paul Irvine of Redmond, secretary and J. E. Myers of Prineville were the members of the board in attendance.

It is expected that the meet and declamatory contest will be the biggest event of the kind ever put on in Central Oregon and a new feature is to be introduced in the awarding of medals. First prizes in each event will be of gold, while entrants placing second will receive ribbons. Contestants placing third will secure points but will be awarded no tokens for so placing. Mr. Thompson, who is in general charge of the meet, is determined that the events shall be run off in rapid fire order, and believes that the entire track and field program can be completed in an hour and a half instead of the four or five hours sometimes taken in previous meets.

The events will be as follows: 50 yard dash, high school; 50 yard dash, grades; 100 yard dash, high school; 100 yards, grades; 100 yards, midgates; javelin throw, high school; mile run, high school; high jump, high school; high jump, grades; 75 yard low hurdles, grades; 75 yard low hurdles, midgates; 120 yard high hurdles, high school; 440 yard dash, high school; 220 yard low hurdles, high school; shot put, high school; 220 yard dash, high school; running broad jump, high school; running broad jump, grades; discus throw, high school; pole vault, grades; pole vault, high school; relay, midgates; 880 yard relay, high school; 880 yard relay, grades.

Hosch; Assistants, Arthur Michel, Principal Gabriel of Madras; Judges for grammar division of field sports, S. W. Babcock, Prineville; John Tuck, Redmond and O. Jensen, Madras.

S. W. Moore will preside at the high school declamatory contest while R. C. Johnson of Bend, E. E. Evans, of Prineville and Mrs. Lillian Watts will be presiding officer, with Margaret Kelly of Redmond, Erma Laird of Jefferson county, and Edna Morse of Crook county will have charge of the preliminaries.

E. E. Evans of Prineville will have charge of all competitions on the tennis courts and Daisy Leonard of Redmond will supervise the typing and stenography contests.

Athletics

Basket ball season ended Friday night when C. C. H. S. was defeated at Redmond by a score of 28 to 27. This makes C. C. H. S. a tie with Bend for second place, as the Bend team was defeated at Madras last Friday night. The Madras school by winning the championship of Central Oregon will receive the banner which is awarded the winning team by the four schools and is entitled to play in the tournament at Salem, with the champions of the other nine districts with all expenses paid. This will be for the championship of the state. We wish Madras the best of luck, though we would have liked to see the C. C. H. S. representative of Central Oregon.

Basket Ball at Redmond

Last Friday night the C. C. H. S. basketball team with several cars of rooters went to Redmond to play the deciding game to see whether we would get to play Madras again for the championship of Central Oregon. The Junior and Senior girls of R. H. S. played a preliminary game which was won by the Senior girls. After this game the boys came on the floor and after a few minutes warming up the game was called and started off with lots of pep on both sides. Prineville made the first basket, and it was soon followed with one for Redmond. The playing was fast and showed good team work on both sides. Redmond had the advantage of the tip-off. We don't know whether the center is 6 ft. 8 in. or 8 ft. 6 in. but he always managed to get the ball to his man. The first half ended 11 to 10 in favor of C. C. H. S. The second half started with a rush, each side determined to win. The score stayed pretty even all the time. When the time was up the score was 27 to 26 in favor of C. C. H. S., but

LANE MAKES FINAL REPORT TO WILSON

Retiring Secretary Says Organization of Official Washington Is Poor.

Washington. — Official Washington "a combination of political caucuses, lawmaking and civil service bureaus" containing "statesmen who are politicians and politicians who are not statesmen" is poorly organized for its task which "fewer men of larger capacity would do better."

Such is an epitome of the views of Franklin K. Lane, retiring secretary of the interior, expressed in a characteristic parting report to the president on the occasion of leaving public life Monday after more than 20 years' service—the last seven in the cabinet.

"Washington," says the retiring secretary, "is rich in brains and character. It is honest beyond any commercial standard. It wishes to do everything that will promote the public good. But it is poorly organized for the task that belongs to it. Fewer men of larger capacity would do the task better. Ability is not lacking, but it is pressed to the point of paralysis because of an infinitude of details and unwillingness on the part of the great body of the public servants to take responsibility."

"We could save money for the government if we had more discretion as to how we should use that given us. For the benefit of the civil servants there should be quicker promotion or discharge and a sure insurance when disability comes. For the higher administrative offices there should be salaries twice as high as those now given and they should be made to feel that they are the ones responsible for the work of the department."

TWO PARLIAMENTS PROVIDED FOR IRISH

London.—By the provisions of the new Irish home rule bill, two parliaments will be set up—one for the north and the other for the south of Ireland; the northern to consist of 52 members and the southern of 128 members. The representation in the imperial parliament would be 12 for north Ireland and 30 for south Ireland, necessitating the reapportionment of Ireland, which is provided for in the bill.

The northern area would be composed of the counties of Antrim, Armagh, Down, Fermanagh, Londonderry and Tyrone and the boroughs of Belfast and Londonderry.

A "council for Ireland," composed of 40 members, half of whom would be selected by each of the parliaments, is also provided for in the bill. The legislative powers of the new council would be only those granted it by the two legislatures, but the framers of the bill hope it will form a nucleus around which would be built one parliament for the whole of Ireland.

CREDIT RESTRICTION DESIRE

Conservative Policy Urged By Banks.

Washington.—Early ending of the general expansion which has characterized war and immediate post-war periods were forecast in a statement summarizing February business conditions issued by the federal reserve board. The upward movement of prices, so far as the board could ascertain, generally had not met with any check.

Financial and banking authorities everywhere were asserted to be looking more seriously at the general situation in credits and beginning to urge the adoption of conservative policies. While the review asserted that this could not be accepted as meaning that the "orgy of speculation" had been absolutely checked, there was said to be the indisputable evidence that banks were exercising a "greater degree of discrimination and judgment in complying with the demands of their customers."

Liquor Moving Is Legal

Washington.—Liquor owners may transfer their stocks legally from one dwelling to another only when there is an actual change of residence and then only under special permit, according to an announcement by the internal revenue bureau, issued to correct published reports that owners of two or more dwellings might move their stock from one to the other unhampered.

Japanese on Increase in Hawaii

Washington.—The Japanese population of Hawaii has increased from a handful 30 years ago to 120,000 persons, Governor McCarthy of the territory told the senate immigration committee. He asked that congress cooperate in Americanizing the alien population of the islands, declaring that orientals constituted more than 50 per cent of the total.
