### JURY TO PROBE BOND DEALINGS

Salem, Or.—As a result of articles recently appearing in The Portland Telegram pointing out excess profits declared to have accrued to the Morris Brothers company, a Portland bonding house, through the sale of municipal bonds to the state, O. P. Hoff, state treasurer, Monday addressed a letter to Governor Olcott asking that he institute a thorough investigation of the conduct of business in the treasury department.

"In view of the recent articles published in a Portland paper concerning the purchase of securities by this department for the benefit of the industrial accident commission trust funds," says Mr. Hoff's letter, "wherein the method of handling such trust funds has been questioned and the public led to assume that this trust is not being properly safeguarded, I most respectfully request that you take steps looking to a thorough investigation of all matters concerning the conduct of this department, which, in your judgment, would best satisfy whatever interest the general public may have in the matter."

Acting upon the request of Mr. Hoff, Governor Olcott directed Attorney-General Brown to summon a special grand jury to investigate the alleged irregularities.

### EVIDENCE AGAINST I. W. W. OUTLINED

Montesano, Wash.—The evidence on which the prosecution will attempt to prove the guilt of the 11 defendants accused of murder in connection with the Armistice day shooting at Centralia was outlined by Herman Allen, prosecuting attorney of Lewis county, in his opening statement to the jury.

That the tragedy was the fruition of a conspiracy laid weeks in advance, and that the firing upon the ex-service men was not in self-defense, but was a premeditated, murderous assault, is what the state has declared it will produce many witnesses to substantiate.

The plea of the defendants, it has been announced, is self-defense. An effort will be made to show that members of the American Legion "rushed" the I. W. W. hall in Centralia before the radicals fired a shot. The state, in its opening outlines of the prosecution's case, denied this and declared that the veterans in the parade were in line and marking time when rifle bullets thudded into the bodies of Grimm and other comrades.

If all witnesses named by the state and by the defense actually are called to testify, the period of the trial will stretch away beyond prophecy. Present estimates are that the case will not go to the jury within six weeks, and possibly not for two months. The state has named 260 witnesses while the defense has stated that it will summon more than 100.

### LEGION TO CONSIDER 'BONUS QUESTION'

Louisville, Ky.—Frank D'Olier, national commander of the American Legion, announced here that a conference of legionnaires of all states would be held in Washington March 22 for reconsideration of the so-called "bonus question."

Mr. D'Olier was en route to Indianapolis from Birmingham, Ala., where he attended Saturday a meeting of American Legion commanders of ten southern states, at which resolutions asking that such a conference be called were adopted. The resolutions also ask that congress delay action until after the meeting. Telegraphic calls to attend the meeting were sent to all state commanders.

The resolutions asked reconsideration on the ground that "it was the announced policy of the American Legion to ask only such treatment as is consistent with the welfare of the whole country and at the same time just and fair" to ex-service men. Expedition by congress of legislation recommended by the legion and providing for land settlement covering all states, home aid, to encourage the purchase of rural or city homes by ex-service men, and vocational education for all service men was urged.
