

EBERT GOVERNMENT AGAIN IN CONTROL

President and Cabinet Meet
in Berlin and Promise to
Furnish Guilty.

Berlin.—The government of President Ebert, which left Berlin when Dr. Wolfgang Kapp and his reactionary troops entered the city, is again in power in the capital. President Ebert and the members of his ministry reached here at 11 o'clock Sunday morning from Stuttgart.

Public services have in a measure been re-established, and it is hoped that Berlin will soon resume its normal activities, though it will be a long time before the damage, material and moral, will be repaired.

The immensity of the damage caused in Germany by the revolution and the consequent uprising and the government's present determination to prosecute the guilty were voiced by President Ebert.

The situation in parts of the country appears serious. From the group of industrial centers on the Rhine and the Ruhr district continue to come reports of spartan agitation. In several places, particularly the Ruhr district, the spartanists are said to be in absolute control. Here their available force is estimated at 70,000 men.

Concentration of loyal government forces, however, is taking place and their arrival at the scenes of disorder is expected to bring quiet.

While the resignation of Gustav Noske, minister of defense, has been demanded by the radicals, it is considered probable that he will retain his post for a time at least in order to restore the confidence of the Berlin population generally.

JURY FINDS SENATOR NEWBERRY IS GUILTY

Grand Rapids, Mich.—Truman H. Newberry, junior United States senator from Michigan, was convicted by a jury of having conspired criminally in 1918 to violate the election laws. He was sentenced by Judge Clarence W. Sessions to two years' imprisonment and fined \$10,000. Released on bond pending an appeal, he at once issued a statement declaring his intention to retain his seat in the senate unless that body decides otherwise, or the supreme court upholds his conviction.

Sharing the fate of the senator were his brother, John S. Newberry, and 15 campaign managers, including Frederick Cody, New York, and Paul H. King, Detroit. Both these men received the limit sentence with their chief.

Charles A. Floyd, Detroit, also was sentenced to two years in the penitentiary, but he was fined only half as much as Newberry. The brother was fined \$10,000 and was one of four who were not sentenced to Leavenworth.

HUNGARY TO FORCE LOAN

Half of Money in Circulation to be
Taken Up.

Budapest.—The government has ordered all banks closed and that preparations be made to commence the stamping of all money in circulation in Hungary. Money in the hands of the people must be presented to the banks, and the bearer is to receive stamped money in half the amount presented.

The other half is to be converted into state bonds to be redeemable in a few years. The bonds will bear interest at the rate of 4 per cent per annum.

There is the greatest excitement throughout the country, because the peasantry has hoarded huge sums of "blue money." The farmers are trying to avoid loss by asking double prices for their products, and are demanding payment in silver, gold or manufactured articles.

Grain Investigators Named.

Washington.—A sub-committee headed by Senator La Follette, Republican, Wisconsin, was named to conduct the senate's investigation of the United States Grain corporation. The other members are Senator Fernald, Maine, and Gronna, North Dakota, Republicans, and Reed, Missouri, and Walsh, Massachusetts, Democrats.

BOLSHEVISTS USE RED CROSS PASSES

London.—Bolshevik agents entrusted with messages regarding sensational widespread red plans have been for a considerable time traveling between Berlin and soviet Russia on false credentials. It is stated in official quarters. The credentials they carried toward to have described them as delegates of the American Red Cross mission in Berlin to conduct investigations regarding the exchange of German prisoners from Russia.

These couriers, it appears, were carrying dispatches between Moscow and bolshevik organizations in other countries, including the German Spartacists and the Swiss communists.

Lithuanian authorities discovered the illicit traveling after Lithuania's borders had been crossed many times, and a number of arrests followed.

Not all the couriers were provided with American papers, but such forged credentials were found on several of the prisoners.

Tacoma, Wash.—After being out for 58 hours, the jury in the case of 36 alleged I. W. W., charged with criminal syndicalism, returned a verdict of guilty.

GREY NOTE MAY HELP TO RATIFY

Recent Letter Believed to
Imply Britain Will Accept
Reservations.

Washington.—A renewal of senate debate on the peace treaty next week was regarded as virtually assured when Republican leaders decided to join with the Democrats in the movement to bring the treaty back into the open senate.

The letter of Viscount Grey, former British ambassador here, to the London Times, in which he said American reservations to the peace treaty were justified from an American point of view, will hasten ratification, it was believed here.

Senators who favored reservations held that Gray's letter took the ground out from under those members who were against any reservations whatever, and who have said that the allies would not accept them. It was pointed out that Britain, the principal associate of the United States in the war, expressed through Gray a willingness to accept many of the reservations which have been proposed.

The former ambassador's letter represents the official policy of Great Britain towards American ratification. It is understood here. While in Washington he consulted with many senators and "sized up" the situation at first hand, went home and reported to his government and shortly thereafter wrote his letter to the London Times.

RAILROADS COST U. S. \$700,000,000

Washington.—Operation of the railroads, Pullman lines, express companies and waterways, unified under federal control, has cost the nation approximately \$700,000,000, according to official calculation, since they were taken over two years ago.

Figures made public by the railroad administration revealed a net loss of \$394,200,000 from railroad operation alone in the two years. Statistics gathered from official sources as to operating costs of the Pullman lines and waterways and express companies while operated by the government show the addition of \$199,000,000 to the transportation costs.

Heavy losses of November and December are charged to the coal strike, in a statement by the railroad administration. A deficit of \$111,500,000 was shown for those two months.

Much of the loss during 1919 should be charged to the first six months of the year, according to the official explanation.

The statement shows that of a loss of \$349,200,000 for the 12 months, \$228,700,000 came during the first six months when there was "a prolonged slump in freight business following the signing of the armistice." It adds that "if the rate increase which went into effect in June 1918 had become effective the previous January, the loss for the two years would probably not have exceeded \$104,000,000."
