Freak of Nature.

One might think that the powerful
bumblebee and the milkweed would
make ideal partners, but such is not
the case says the American Forestry
Magazine of Washington. These re-
markable plants, which not only flow
with honey, but also invite their in-
sect guests by a strong honey scent,
are utterly ignored by the big hungry
bumblebee.

Not in Bull's Class.

Peter was out exercising his bulldog
when a small white poodle ran up to
the gate and began barking through
the cracks of the gate at Peter's bul-
dog, which made him growl and raise
his bristles as if he would chew the
poodle up. Peter said to his dog:
"Drop your bristles, Bull; nothing do-
ing with such a little dog like that."

Growing Suspicious.

That's Where It's Brewed.
Silence is said to be safe—yet a
great deal of trouble comes from the
still.—Boston Transcript.

If anybody tells you that some one
else said so, the telling is so to 1
that some one else never said any
such a thing.—Cincinnati Enquirer.

And any man who uses the
Real Tobacco Chew will tell
you so.

You get a lot more satisfac-
tion in a little of the Real

chew of the old kind.

And it costs less to chew.
The full rich, real tobacco
taste lasts so much longer.

offering their mills and our young men are offering their services

share and help, by putting your money where it will support the
new Federal Reserve Banking System, which the government
has established to stand back of our commerce, industry and
agriculture?

You can do this by opening an account with us as part of every
dollar so deposited goes directly into the new system, where it
will always be ready for you when wanted.

**LEGAL EXPERTS TO
ANSWER DUTCH**

French to Prepare an Ex-
tensive Survey of
the Case.

Paris.—The reply to the refusal of
the Dutch government to comply with
the demand of the allies for the sur-
render of former Emperor William
was the first subject discussed at the
initial meeting of the council of the
ambassadors, created to carry on the
unfinished routine work of the su-
preme council of the peace conference
which disbanded last week.

It was decided that the French legal
experts available should go into all
the aspects of the case and prepare
the reply, which probably will be sub-
mitted for approval of the council ear-
ly next week.

The council was presided over by
Premier Millerand, Hugh C. Wallace,
the American ambassador, was pres-
ent with the other members of the
body.

The council received a letter from
Stanislaus Patek, Polish minister of
foreign affairs, calling attention to the
possibility of a strong aggressive
movement by the Bolsheviks against
Polish territory and recommending
that a plan be adopted for defensive
measures. The letter asked that the
question be called to the attention of
Marshall Foch.

**COMMUNIST PARTY
HELD REVOLUTIONARY**

Washington.—The communist party
of America was held by Secretary Wil-
son of the labor department to be "a
revolutionary party" within the mean-
ing of the statutes providing for de-
portation of aliens who affiliate with
such organizations. In the specific
case of Englebert Preis, an Austrian,
arrested in recent raids, execution of
a deportation warrant was ordered by
Mr. Wilson, paving the way for de-
portation of a large number of aliens now
in custody against whom similar
charges have been brought.

The ruling was made in a formal
opinion in which documents relating
to the communist party are discussed,
and in conclusion the secretary said:
"The only conclusion is that the
communist party of America is an or-
ganization that believes in, teaches
and advocates the overthrow by force
or violence of the government of the
United States."

RUSSIANS ATTACK YANKS

Two Americans Slain in Clash With
Semenoff's Men.

Washington.—Two American sol-
diers were killed and one severely
wounded in the clash with a Russian
detachment of General Semenoff's
forces on January 19, near Poodlak-
aya, while five Russians were killed,
one wounded and fifty-five captured,
including one general and six other
officers.

In reporting the clash to the war de-
partment, Major General Graves, com-
manding the American expedition in
Siberia, said the Russians, in an ar-
med car, made an unprovoked at-
tack on the Americans, who were in a
similar car. The Russian attack was
repulsed and the Americans then cap-
tured the car and its occupants.

General Graves said he believed the
incident could be peacefully adjusted
with General Semenoff "who could not
have been responsible."

No Change in Reservations.

Washington.—No change in the re-
servations affecting article 1 of the
league of nations covenant or the
Monroe doctrine provision of the peace
treaty will be acceptable to the re-
publicans, Senator Lodge informed
Senator Hitchcock and other members
of the informal democratic committee
which had been conferring with Sena-
tor Lodge's committee in an effort to
reach a compromise on the treaty.

Senate Refuses to Censure Sims.

Washington.—The senate rejected,
23 to 20, an effort by Senator Walsh,
Mont., to call up his resolution propos-
ing to censure Rear Admiral William
S. Sims for disclosure of information
of a "confidential character" in con-
nection with his appearance before the
sub-committee investigating naval de-
coration awards. The vote was on
strict party lines.

Anti-Bolshevik Forces Lose in Siberia

London.—Irkutsk has fallen to the
Siberian social revolutionaries while
revolts have spread throughout the
entire country, virtually overwhelming
the all-Russian anti-Bolshevik govern-
ment, a Tien Tsin dispatch says.

Poles Prepare to Fight.

Copenhagen.—The Polish cabinet
has signed a mobilization order, says
a Warsaw report.

"WHERE IT PAYS TO TRADE"

Civilization in Korea.

History for many years B. C. tells
us that the people of Korea were
among the highest in genuine civiliza-
tion. About the year 1307 a general
by the name of Li built the first iron
fence, composed of wooden circular ves-
sels with iron plates on top, studded
with iron teeth. Because of the pro-
perty of the Korean nation, Japan
was extremely jealous, and had there-
fore brought 700 boats in battle array.
However, Li, with his 50 boats, suc-
ceeded in inflicting a disastrous defeat
upon the Japanese.

Miniature Castle From Sandstone.

Carved from soft sandstone, a minia-
ture medieval castle on a California
beach faithfully represents a feudal
fortress on a small scale. The model
building stands on a distinctive hill
that strikingly resembles the precipi-
tous elevations upon which such
strongholds usually were built. Sev-
eral styles of architecture are to be
seen in the small castle, which was
fashioned on a scale of one-fourth
inch to one foot by a mechanical en-
gineer who spent his leisure moments
on the task.—Popular Mechanics Mag-
azine.

Ignorance.

When complaints are made—often
not altogether without reason—of the
prevailing ignorance of facts on such
and such subjects, it will often be
found that the parties concerned though
possessing less knowledge than is de-
sirable, yet possess more than they
know what to do with. Their deficiency
is in arranging and applying their knowl-
edge in combining facts and correctly
deducing and rightly employing gen-
eral principles will be perhaps greater
than their ignorance of facts.—Richard
Whitley.
