

"Nothing wrong with our balance"

—Chesterfield

THE right balance of costly Turkish and Domestic tobaccos, proportioned by experts—that's why Chesterfields "satisfy."

Every puff brings you the full, rich flavor of genuine Turkish tobacco and the lively relish of choice Domestic leaf.

And the blend—the manufacturer's private formula—cannot be copied.

Every package enclosed in glassine, moisture-proof paper that seals in the flavor.

Ligarettes are Tobacco Co.

Plea for Natural History.
We content ourselves with a knowledge of the tongues, and a little skill in philology, or history, perhaps, and antiquity; and neglect that which to me seems more material. I mean natural history. I do not commend or derogate from those other studies; I should betray mine own ignorance and weakness should I do so; I only wish they might not altogether jostle and exclude this. I wish that this might be brought in fashion among us.—John Ray (1691).

Family Men Favored.
In one chemical factory in Switzerland, which is representative of other chemical and dye concerns, married men receive 10 per cent more a week than single men engaged in the same occupation, and still above this married men receive 54 cents a week extra for each child under fifteen years of age.

New Orleans Cemeteries.
Surrounded as it is on three sides by the Mississippi and on the fourth by Lake Pontchartrain, no wonder New Orleans must bury its dead above-ground! Even a shallow grave becomes a well. The cemeteries, with their wildernesses of stone and marble tombs, are one of the sights of the city.

Many Countries Ahead of Us.
In normal times Norway, Sweden, Denmark, Holland, France, Belgium, Switzerland, Italy, Germany, Austria, Hungary, Spain and Portugal all publish more books in proportion to population than the United States publishes, and their books have a wider circulation.

Disappearing Lakes.
It is believed that about 100 lakes in the Tyrolean Alps have subsided and disappeared within the last century.

Explains Sodom and Gomorrah.
Bricks cemented together with dried petroleum have curiously enough, been found in large quantities in Nineveh and Babylon. The oil-bearing and sulphur-impregnated shales of the valley of the Dead sea, which are now being developed, supplied the "brimstone and fire" which destroyed Sodom and Gomorrah.

Explanation of Dreams.
To see a funeral, a coffin or a corpse in one's dreams generally portends an illness, death, or some grave misfortune. If the dream is rather vague and hazy, it may often be regarded as a sign of birth or a marriage.

Name Hard to Ascertain.
Gertrude found a cat and shortly after a neighbor asked her its name. "Oh, I don't know yet," answered the youngster; "I called it every cat name and it won't meow to any of them."

Reminded Him of Father.
A Battle Creek boy, seven years old, was run over by a train, but after it had passed and when the bystanders rushed forward to pick up the remains, the lad sat up, snuffing a little, and said he wanted his mamma. His injuries were trifling, and he probably judged by the noise that his dad had been thrashing him again.—Detroit News.

Gearing Reversed.
I put a new rear axle in our car and wishing to take a ride I threw in the reverse gear to back out of the garage. To my surprise, the car started forward right toward the end wall of the garage. In putting the axle in I had got the driving gear on the wrong side of the drive shaft, so that it reversed the gearing.—Exchange.

Over-Enthusiastic.
Once in a while you meet a friend who is so glad of a chance to help you out of trouble that he is almost willing to help you into some for the sake of showing you.

Right and Wrong Argument.
Argument is good when it seeks to bring out facts. When it seeks the tawdry glory of temporary mastery, it is a wind from the desert, neither bearing rain, nor soothing the traveler.—Exchange.

Impressive Potatoes.
In no country in the world will one find a more garish display in the way of dress than in India. Both men and women of the highest rank present the most gorgeous appearance when they are "all dolled up." Magnificent jewels are worn and no royal ruler in other lands can show more magnificent pearls than are worn by some of the potentates of India. The high and mighty of the land present a fearful and wonderful appearance on state occasions, and it is worth going far to be present on an occasion of this kind.

In Confidence.
The ancient Greeks dedicated the rose to Harpocrates, the god of Silence, and garlands of roses were draped over the doors of rooms in which debates or conferences were taking place in order that words which were spoken "sub rosa"—under the rose—were secret and not to be repeated outside. Hence our use of the term to denote something told in confidence.

Strange Names Popular.
In India names are likely to change as a result of conversion to Christianity. For instance, Mr. Noseprickod becomes Mr. Servant of Jesus; Mr. Boggar, Mr. Child of the Church; and Mrs. She Devil, Mrs. Happiness.

Time.
Now, for the truth of things, time makes no alteration; things are still the same as they are, let the time be past, present, or to come. Those things which we reverence for antiquity, what were they at their first birth? Were they false?—Time cannot make them true. Were they true?—Time cannot make them more true. The circumstance, therefore, of time, in respect of truth and error, is merely impertinent.—John Hales (1628).

Convertible Skates.
A Chicagoan has invented a convertible skate, which reminds us—though it is nothing appertaining to the subject—did you ever notice how quickly a man sobers when his wife sights him? The convertible skate is not new by any manner of means.—Buffalo News.

In Quite Too Many.
Speech was given man to conceal his thoughts, but it was a needless precaution in many cases.—Boston Transcript.

Havoc of Education.
I am against all education. It makes women conceited and unkind. And it makes men dull and pedantic.—Frederic Harrison in 1904 to Lady Dorothy Nevill.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.
