

### How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an expense so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're wandering through the world just once; how much better will the world be because you passed through?

United Financial Campaign

April 25th to May 2nd

### The INTERCHURCH World Movement of North America

The publication of this advertisement is made possible through the cooperation of thirty denominations.

### "It Will Surprise You" says the Good Judge

When you learn how long a little of the Real Tobacco Chew lasts.

How long it holds its rich tobacco taste.

The real satisfaction.

The money saved.

Any man who uses the Real Tobacco Chew will tell you that.

Sirius is Some Speeder. Sirius, our brightest star, is called a fixed star, but it appears to move about an inch in a century, which means, considering its distance from the earth, that it is moving at the rate of 1,000,000 miles a day.

#### Farmer's Hard Luck.

Earth in the upper peninsula is so kind that, tickle her with a hoe and he brings with a harvest, but there are some drawbacks. It seems, a farmer down at Au Train put out cabbage one year, and grew perfectly precious heads weighing, every one of them, forty pounds or less, but dog-eared the back, next year the piece was set like cut-over land again, and it was to farmer all season to clean out the stubborn cabbins.—Detroit News.

#### Difficult Transaction.

"When a man marries for money," said Miss Yvonne, "you may expect complaints from everybody concerned of having gotten the worst of the bargain."

The Old Way—Lugging water over or uphill

The New Way—Simply turn the faucet

### Which Method Does Your Wife Use?

Do you let her "lug" tons of water every year while you use tractors, seeding machines, cultivators and other improved machinery to do your work? Isn't she entitled to the same modern conveniences in the home that you have on the farm?

### GOULDS

HI-SPEED Pumping Outfits

Have you put running water within the reach of every lamp. They are made in two capacities—140 and 200 gallons per hour—and in 13 different combinations to meet every requirement. There are electric-motor-driven outfits for direct and alternating currents, also for the home-lighting system current. And there is a gasoline-engine-driven outfit for those who have no electric current available. The "Hi-Speed" Pump is noiseless—it runs so smoothly that at ten feet you can't hear a sound. Its simplicity makes possible an exceptionally low price.

HILL HYDRAULIC RAM for irrigating

T. J. MINGER.

IF—THE STATE UNIVERSITY AGRICULTURAL COLLEGE AND THE STATE NORMAL

have for many years spent less money per student in training Oregon boys and girls than is spent at any other state institution. The present cost at the State University is \$203 a year; at the College it is \$180. But even before the war, when money would buy twice as much as it buys now, the average cost at all other state institutions was \$325 a year. In addition.

### THEIR BUILDING INVESTMENT IS ALSO VERY LOW

At the State University it is at present \$322 per student; at the College, \$300. But in state institutions elsewhere, statistics show the average to be \$395. These are convincing proofs of economic administration, but the three institutions can no longer give satisfactory training to the vast number of Oregon Boys and Girls (5,400 in full time courses alone) unless they receive more support. On May 21 the Higher Educational relief measure will appear on the ballot. You are urged to preserve the quality of higher education by voting for it.
