HELP GIVEN BY
O. A. C. TO THE
OREGON FARMER
in grain raising, dairying, horticulture, stockraising, poultry production, and other branches of agriculture, have
Saved Oregon More Than
Higher Education
Has Ever Cost
from its very beginning in Oregon. The College has reduced cost of production, improved quality of product, and helped keep down the pests of farm, garden orchard and field.
Like The State University
And The Normal
It has helped bring school, business and home into vital contact and has helped demonstrate that Higher Education is of Direct help to the Country Districts
but higher education in Oregon is crippled by great increases in attendance, by lack of buildings, by the fallen buying power of the present millage support, and by the failure of the millage support to grow.
You are respectfully urged to vote for the new millage support bill on May 21, the Higher Educational relief measure.
