TRADE IN OUR TOWN

NOT ASKING FOR MORE ROAD MONEY
 "The State Highway Commission is not asking for more money" said R. A. Booth, commissioner, in addressing a Lane county audience on the 4 per cent road bond limit measure; "all we want is the power to capitalize the income now on hand. The state road funds are now taken from two sources—the one cent tax on each gallon of gasoline and the automobile license fees. The state constitution, as it now reads, prohibits more than 2 per cent being put into the roads, and what the commission wants is an amendment of this clause so 4 per cent can be put into the roads. A direct additional tax is not asked for, nor is any increase in the gas tax or auto license fees."
 Mr. Booth also brought out that "a new road program is not to be

rushed through, but the present one is to be finished providing the voters of Oregon back up the 4 per cent limit measure."
 Commissioner Simon Benson is also on record against rushing construction too rapidly, considering high labor costs and the high cost of money, but favors ratification of this 4 per cent bonding amendment so there will be authorization to issue bonds at such times as favorable conditions justify. Final control over actual bond authorization rests with the legislature, as unless the legislature passes enabling legislation under the 4 per cent amendment, the highway commission is without authority to issue bonds.

Since March 1, more than 250 organizations in Oregon have endorsed the higher educational bill, and now that election day is almost here, endorsements are being sent in at the rate of ten to fifteen a day. As a result, all classes seem able to unite in support of education.

The realization that the elementary tax measure of two mills is not necessarily an additional tax, but redistribution of school taxes now levied, has added to the strength of the higher educational bill. A few citizens who thought that they should not vote for both if a straight increase were involved are quite ready to vote the smaller sum of 1.25 mills for the higher educational schools, since there is no source of income except the millage tax from the state.

Men and women who have registered as independents may not vote upon candidates in Oregon on May 21, but may vote on the five constitutional amendments and the four measures. This decision has been given by attorney General Geo. M. Brown who ruled as follows:

"While May 21 is Primary Day and only Republicans may vote a republican primary ticket, or a Democrat take part in the democratic primary, all registered legal voters have a right to vote on measures regardless of their political or non-political affiliations. Such measures will be printed on a separate ballot."

The Attorney-general was asked for this decision by supporters of the 1.25 mill measure for the protection of the work of the State University, the State Agricultural College, and the State Normal School.

Cardinal Manning.
 The middle of the nineteenth century saw a great movement in England toward the Church of Rome. Among the many well-known converts was Henry E. Manning, who had been a clergyman in the Church of England for over fifteen years. He entered the Roman priesthood and was ultimately made cardinal archbishop of Westminster. He died January 14, 1892.

Machine for Grain Inspectors.
 Grain inspectors must know the exact amount of moisture in specimens submitted and a machine has been made to determine this in a thirty-minute test.

Due to Water.
 The iridescent fire in the opal is due to the water in the gem, opals being simply a mingling of silica—flint—and water.

Mrs. Eliza Powell and Emma Steers, of Morrow, and Charles Powell of Portland, who have been visiting at the M. D. Powell home, left Sunday morning by auto.

James Moffitt and family are attending to business and visiting in the city.

Tressie Houston left Sunday by auto for Portland with the Charles Powell party. She will also go to San Francisco from there, where she plans to enter a hospital to take up the study of nursing.

C. C. Reynolds was a business caller in town Saturday.

Etta Houston, who has been employed in the local office of the telephone company, left Tuesday from San Francisco, where she has been transferred to the company's office there.

John Kemmling was in Monday from his ranch on McKay.

Herbert Booth, who works at camp 24 in the highway work, went thru town Saturday on his way back from Salem, where he was called to the bedside of his mother, who has been ill.

Bill French came through Monday with a large load of lumber.
