## BILL FAVORING SCHOOLS IS ENDORSED

Prineville is credited by Agricultural College workers with being strongly in favor of the 1.25 mills for protection of higher education in Oregon. They report some inquiries on certain phases of the measure—310 on ballot—which the joint relief committee answers as follows:

The bill provides for payment of \$1.25 on each thousand dollars assessed valuation as supplementary maintenance funds for the College, University and Normal.

While this will be due, if bill is enacted, regardless of the six per cent tax increase limitation, it will not repeal that law—merely be an exception to it.

The state sends twice as many students as it has provided room, equipment and teachers for and these students have been educated at a cost little more than half the average cost per student in other state universities and colleges. Even if increase is granted it will lack about \$70 a year of providing as much per student per year as the average of the country.

The State Legislature investigated the schools and recommended the relief measure to the people for favorable action.

More than 350 different associations—largely of farmers and housewives, have passed resolutions in favor of the bill. Reports of other favorable resolutions are coming in at the rate of 10 to 15 a day.

Citizens are urged to study the measure, but where they cannot they are referred to the endorsements of the legislature and other bodies of citizens as evidence of its merits.

properly adjusted. If upon application of the break, one wheel moves faster than the other, the tire on the one moving the slower receives most of the strain, and under these circumstances excessive wear to the tread may be expected.

### C. C. H. S. WINS IN TENNIS TRY-OUT

C. C. H. S. won from Jefferson County in a tennis try-out at Redmond last Saturday. The result of this tryout bars Jefferson County from the tennis matches at the Central Oregon Track Meet which will

be held in Redmond next Saturday.

This advance contest was held in order to shorten the number of games to be played next Saturday, as it would take too long to play all games then. C. C. H. S. will play Deschutes County at that time.

Darrel and Ogden Mills represented Crook County in the doubles last Saturday, and Wistar Rosenberg in the singles. All sets were easily won. Mr. Gillett accompanied the boys to Redmond.

### BETER CATTLE

W. F. Freund a rancher in the vicinity of Prineville unloaded from the car at the Depot Saturday a thoro bred registered Brown Swiss Bull. This bull is only 5 months old and weighs over 400 pounds.

This now makes Mr. Freund a herd of 11 of this breed of cattle. He says, "This breed of cattle is better suited for the country surrounding Prineville, because the Brown Swiss cattle originally came from a similar country such as we have here. They are very gently and are not easily excited, and being very good for beef and milking purposes.

They are of a large build thereby making a good animal for beef. Mr. Freund feels that this breed of cattle is proving to be far superior to any other breed of cattle for this locality. Buy BETTER BULLS.

### Look to Future Food Supply.

Owing to the shortage of imported foodstuffs, the production of foodstuffs locally is being encouraged by the Straits Settlements and the federated Malay states. Even some of the rubber plantations have been compelled to utilize portions of their acreage for food products. This stimulation of agriculture has created interest in mechanical means to increase production, and a shipment of tractors made recently sold readily.

### Wanted It Once.

In the bygone days when fares were 5 cents for grown-ups, 3 cents for children under 12, and small boys of 12 and 7 each a platform. The younger boy had promised the 2 cents change, but when they had for coffee, he had the coin to the conductor, who did not immediately turn over the penny. The anxious child then remarked loudly but forcefully, "I'm worth 3 cents."—Chicago Tribune.

### Potatoes' Food Value.

Potatoes differ widely in food value. It is shown that the most useful potato for food is the one with the largest amount of dry matter. When two varieties are practically equal in this respect the nitrogen they contain enters into the estimation of their feeding quality.

### United States' Land Best.

British America, which consists of Canada, Newfoundland and a number of islands, has an area of 3,750,000 square miles; while the total area of the United States and its possessions is 3,745,446 square miles. Thus Britain has a little more territory, but it is largely so far north as to be of comparatively little value.

### True Forgiveness.

It is the sweet and entire forgiveness of children, who ask pity for their sorrows from those who have caused them, who do not perceive that they are wronged, who never dream that they are forgiving, and who make no bargains for apologies—It is this that men and women are urged to learn of a child.—Alice Meynell.

### Japanese Training.

Japanese children begin to study Jujitsu in their earliest years, for it is a system of physical culture, hygiene and ethics, and the exercises give strength and flexibility to the limbs. Later the pupil is shown the fine art of using an adversary's strength against himself.

### Plenty of Fungi Eats.

More than 700 species of fungi are found to be safe to eat and many are considered very nutritious.

WSS NEWS NOTES WSS

Arthur Milner celebrated his 28th birthday last Wednesday when his wife gave a dinner party in his honor. The guests were: Mr and Mrs. A. W. Bayne, Mr and Mrs. J. A. Riggs. His mother-in-law presented him with a beautiful and delicious birthday cake to which Arthur and his guests did ample justice.

Mr. Will Lee of Klamath Falls visited at the Frank McCaffrey home last week.

Arthur Wurzweller has returned from Portland where he went with a car load of cattle. Mr. Wurzweller topped the market at that time and was fortunate enough to sell before the price declined very much.

Nearly all of Powell Butte residents attended the funeral of Reaves Wilcoxon in Redmond last Saturday. Mr. Wilcoxon was long a resident of Powell Butte and was held in high esteem by those who knew him. The sympathy of the entire community is with the bereaved wife.

C. M. Charlton and Arthur Wurzweller went to Bend on a business trip last week.

Mr. E. H. Stewart and Mrs. Gladys Stout were in Bend last Friday on a shopping trip.

Mr. and Mrs. J. A. Riggs and Mr. Riggs' mother, also Mrs. George Whitsett were in Bend last Friday.

Mrs. Frank Kissler writes from Billings, Montana, where she is visiting her people, that she will start on the return trip about May 14.

Our old neighbors, Mr. and Mrs. John Tuck, now of Redmond, came out to attend the Sunday school program and basket lunch and enjoy a visit with old friends and neighbors. A small crowd attended the speaking at Community Hall last Thursday night when Judge Wallace and Superintendent Myers talked on the referendum measures. Refreshments were served by the men of the association following the speaking.

A very pleasant time was spent with the Redmond Sunday School as entertainers last Sunday at Community Hall. Powell Butte Sunday school had invited them to give their Mother's Day program and it was very good indeed. A basket lunch was spread following adjournment, and a general social time was enjoyed by all present. These occasions tend to cement the fellowship of communities.

Charley Parrish and family are at their Maury ranch for a few days.

Mrs. Harold Baldwin and daughter Elizabeth of Prineville visited with Mrs. Arthur Wurzweller last Friday.

### PLEADS FOR FAIR CHANCE FOR TIRES

"Give your tires a chance," pleads Mr. Lakin, Firestone representative at 4th and Main Streets, in suggesting ways to secure greater mileage for the auto owner.

"The use of foot or emergency brakes is taught to the new car owner early," he says, "and being some what nervous and timid, the driver may apply the brakes very hard, with the result that one or both rear tires receive tread damage.

"When so damaged the tire should be given immediate attention or the injury will result seriously if dirt and dampness is allowed to work beneath the tread.

"It is also advisable to inspect brakes frequently to see that they are
