

Chevrolet

The cost of operating trucks depends to some extent upon the driver. If it is easy for him to drive he will operate it with greater efficiency, and thereby at a lower cost of maintenance.

The Chevrolet is an easy truck to drive. The controls are conveniently arranged as you will observe from the illustration below. And they are simple to operate. It is equipped with a good sized steering wheel, an adjustable windshield and adjustable head lights which are especially convenient for night driving.

A governor is also provided which limits the maximum speed of the truck to twenty-five miles an hour and can be locked to prevent changing by the operator.

Electric lights and starter of the highest type two-unit system are also provided, as well as dimmers; electric horn; odometer; side curtains for driver's seat; windshield; complete tool equipment.

Ask Oregon Agricultural College, Department of Animal Husbandry, **SHADY BROOK PRODUCTS COMPANY** 812 Board of Trade Bldg., Portland, Oregon

Charles Darwin's Boyhood.

Doctor Butler, the headmaster at Shrewsbury school, had often to call Charles Darwin (the most famous naturalist of the nineteenth century) to task for inattention and laziness during his studies. The only thing that seemed to interest him was the collecting of caterpillars, worms, and all sorts of creeping things, and the risking of his own and his brother's life by dangerous chemical experiments.

Where He Was Weak.

The other day, my little cousin brought home his report card marked A plus for everything except deportment. His father said: "Why, John, how does this happen?" John's reply was: "Well, but daddy, that's my hardest study."—Exchange.

Denby!

Motor Trucks

The growing cost of labor, the general improvement in roads everywhere, the increase in construction work, and the growth of long distance cartage, are increasing the necessity for motor trucks of heavy tonnage. Where capacity loads can be maintained, the large truck gives the largest output per man and the lowest ton-mile cost.

The Denby 4-ton truck is designed and built to give the greatest possible results—to make it pay the owner maximum dividends. Nothing has been left undone that would increase its reliability, its road-ability and its economy in fuel, upkeep and maintenance.

Two of these trucks are running 24 hours every day, hauling lumber for Redford Brothers, into Redmond to the Tum-A-Lum yards there. The second of these was delivered last week after the first had been in use a year.

All Denby supplies and parts are now secured immediately from the factory branch, 10th and Davis Streets, Portland, Oregon.

Call on or write us about these trucks, one of the four tons capacity.

The part that fine steels play in a

Maxwell

THERE IS A DEFINITE REASON FOR THE BRILLIANT PERFORMANCE OF A MAXWELL CAR.

LIFT THE BONNET AND YOU SEE THE SIMPLEST OF ENGINES. EXAMINE CLUTCH AND GEARS, AND YOU SEE SUPREME SIMPLICITY.

THE DEFINITE REASON FOR MAXWELL PERFORMANCE, THE ENDURANCE IS IN THE FINE STEELS BUILT TO MAXWELL'S OWN FORMULAS, THAT COMBINE QUALITY AND RARE STRENGTH THAT DEFY TIME AND THE REPAIR MAN.

THIS IS THE STORY OF THE MAXWELL THE REAL CAUSE FOR BRILLIANT PERFORMANCE AND LONG ENDURANCE. THESE DO NOT BURDEN THE ENGINE. THEY MAKE ITS TASK EASIER. THEY FLATTEN OUT A HILL FOR THE ENGINE.

THE COMBINATION OF LIGHT WEIGHT AND WONDERFUL STRENGTH—THE IDEAL OF MAXWELL CONSTRUCTION—IS ACHIEVED.

THAT IS WHY THE RISE OF MAXWELL HAS BEEN SO MARKED; WHY NEARLY 400,000 HAVE BEEN BUILT; WHY 100,000 ARE BEING CONSTRUCTED THIS YEAR; WHY THESE WILL FILL, BUT 60 PER CENT OF THE DEMAND.

Useful Kerosene.

Housewives, with but few exceptions, do not properly value kerosene. As a lubricant a drop or two will set things going which refused to go before. As a cleanser it can often be used with great advantage in place of soap and water. Floors can be more quickly and more thoroughly cleaned with a well-oiled mop than with soap and water, leaving a bright, shining surface.

Wonderful Natural Spectacle.

The Garden of the Gods is a tract of land about 500 acres in extent, near Colorado Springs, Colo. It abounds in weird and fantastic pinnacles of red and white sandstone, some of them more than 300 feet high. Among the chief features are the Cathedral Spires, the Balanced Rock, etc. The gateway of the garden consists of two enormous masses of red sandstone, 330 feet high, sufficiently far apart for the roadway to pass between them.

Pots Used to Swell Sound.

The ancient Greeks, to secure resonance without the use of woodwork, placed under the seats of their theaters earthen pots, with the mouths turned toward the stage, the vibrating mass of air in these serving to re-enforce the sound.

Insect Mother's Sacrifice.

The last act in the life of the female cochineal insect is to lay a large number of eggs, upon which her dead body rests, protecting them from the burning rays of the sun until the little ones emerge.
