HOUSE PLAN NO. 578, E. N. HALL RESIDENCE

There is no reason in all the world why you can't, as others are doing, have a home of your own—a home built as you've always dreamed a home should be—a home you've planned and designed and decorated—which is exactly in accordance with the wishes and needs of your family.

Do you know that it does not cost any more to build than rent? Practically the same amount of money you pay each month for rent—or even less—will build you a home and entirely pay for it. Where is the sense in paying for the privilege of living in a home when you could just as easily own that home?

Build now! Nothing is to be gained by waiting. Authorities concede that building costs today are somewhat above normal, but they also state that costs cannot be lower until some future time as yet unforeseen. As against this, rents are higher today than ever before, so you are actually losing money every day you delay.
