

SONNETS FROM PARADISE, N. Y.

A business man who has just come to Oregon to make his home says: "Only in a few sections could business be developed to the present stage and still have so many of the possibilities untouched. My impression of Oregon is first, that you have a wonderful country; second, that you have done wonderful things with it; and third, that you can do still more wonderful things."

Oregon has made rapid strides in the past few years and the possibilities for the future are almost limitless. But it behooves every loyal citizen to get behind Oregon industries and BOOST

You can't pull the tread off a Thermoid Tire

Eight features that make Thermoid Tires extra strong

- 1. Thermoid Tires, in many sizes, contain one more ply of fabric than is put in standard tires. For example: 3 1/2 inch tires are built with 5 plies of fabric, and 4 1/2 inch sizes with 7 plies.
2. The fabric in Thermoid Tires is woven from 17 1/2 ounce long staple Sea Island Cotton.
3. Between each layer of fabric is a special blend of Crolide Compound rubber.
4. The cushion is also made of a special blend of Crolide Compound rubber.
5. The breaker strip is made of specially woven fabric.
6. Between the cushion and the tread there is a different percentage of Crolide.
7. The tread is of Crolide Compound rubber—extra thick, and because of Crolide, tough and resilient.
8. The tread is held firmly in place by a special Thermoid interlocking arrangement of the plies of fabric.
We claim, frankly, this tire will give you more mileage for less money than you've heretofore obtained. The Thermoid guarantee below offers you the opportunity to prove or disprove this claim for yourself without risk.
6000 miles guaranteed (For sizes 7500).

Costs Nothing To Try

WITH EVERY CAN of Dependable goes this guarantee—If after using half the contents of the can you are not satisfied, then return the remainder to your grocer and he will refund your money.

We couldn't afford to make such an iron-clad guarantee unless Dependable is all we claim it to be.

Dickens as Social Reformer.

To our mind the greatest social reformer that we ever had, and one of the greatest that the world has ever seen, was a man of letters, one of the two greatest names perhaps of modern literature—Charles Dickens. That great writer points out that all the inheritors of that time—and we are the inheritors of that time—had their origin in the appalling circumstances in which the working people lived—in London, of course, which he knew best, first of all, but in like degree all over the country.—Viscount Burnham.

Transvaal's Diamond Output.

At one time the mines of India produced all the diamonds of the world. Now more diamonds are obtained at the mines in the Transvaal in one hour than are recovered in the entire Indian empire in a year.

Wood Rat's Peculiar Trick.

The wood or pack rat, common in the northwestern part of the United States, has this peculiar trait: It leaves bits of wood, leaves or trash as substitutes for the materials it carries away.

Silly Beliefs.

There are still some places where people believe a felon on the finger is caused by having pointed the finger at the moon, and that some headaches are caused by having one's hair cut while the moon is crescent.

This Bird is Friendly.

Ever try to feed a chickadee? He is a sociable fellow, says the American Forestry Magazine of Washington. If you whistle to the chickadee he will invariably respond, which is more than can be said of most other birds.

IF—THE STATE UNIVERSITY

AGRICULTURAL COLLEGE

AND THE STATE NORMAL

have for many years spent less money per student in training Oregon boys and girls than is spent at any other state institution. The present cost at the State University is \$203 a year; at the College it is \$180. But even before the war, when money would buy twice as much as it buys now, the average cost at all other state institutions was \$325 a year. In addition.

THEIR BUILDING INVESTMENT IS ALSO VERY LOW

At the State University it is at present \$322 per student; at the College, \$300. But in state institutions elsewhere, statistics show the average to be \$995. These are convincing proofs of economical administration, but the three institutions can no longer give satisfactory training to the vast number of Oregon Boys and Girls (5,400 in full time courses alone.) unless they receive more support. On May 21 the Higher Educational relief measure will appear on the ballot. You are urged to preserve the quality of higher education by voting for it.

Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.
