In the Semata Medica (Buenos Ayres) he gives details of the way he remodels the stump so as to utilize the individual muscles and describes the extent to which the man moves his foot, thus walking by the natural bending of knee and ankle.

The Cone of Our Pine.

So hard is the cone of a pine in our western forests that the imprisoned seeds cannot be disengaged in the ordinary way. The best way is to burn the cone over a hot fire until it bursts, when the seeds escape. When forest fires sweep the country these pine cones have their chance, and from them new trees grow.
