## Lifetime in Weaving a Shawl.

The Metropolitan museum of New York has a rare Persian shawl said to be 165 years old. The shawl is 11 feet by 4 feet, worked in long flowing designs of the palm leaf and the River of Life, with the stories of the mosque. The predominating colors are mellowed garnets and brown, with alternating sheens of steel gray and rusty brown. An expert to whom the shawl was shown said its makeup probably represented the lifetime of the weavers.

## "Grand Old Party."

The term "Grand Old Man" was applied to Mr. Gladstone in 1882, and is accredited to John Bright, who used it in a speech that year in Northampton, England. In America the phrase was appropriated and changed by members of the Republican party, who affectionately called it the "Grand Old Party." This at once became a newspaper slogan and in the headlines was shortened to "G. O. P."

## Wesley's Physical Toughness.

Spare diet and constant exercise in the keen morning air helped to endow Wesley with that amazing physical toughness which enabled him, when eight-five years old, to walk six miles to a preaching appointment and declare that the only sign of old age he felt was that "he could not walk nor run quite so fast as he once did." —W. H. Frichett in "Wesley and His Country."

## Bank of England.

The Bank of England is not a government institution, as is popularly supposed. It was projected by William Paterson, a Scotch merchant, to meet the difficulties experienced by William III in raising supplies for the war against France. Forty merchants subscribed £500,000 towards the sum of £1,200,000 to be lent to the government at 8 per cent, in consideration of the subscribers being incorporated as a bank.

## Her Nice Neighborhood.

Bernice, aged six years, had just started to school and was in the first grade. She also was very proud because of her progress. I recently visited her home and asked her mother if I could take her for a stroll in the park. While walking along a little boy about her size passed us, at the same time giving Bernice a friendly smile, who returned it, saying to me: "Aunt Jane, don't you think he's a nice neighborhood?"—Exchange.

## Saving the Tin.

After trying many other processes of recovering tin from old cans there is now, according to La Nature (Paris), a return to the old-fashioned method of boiling the scraps (well cleaned) in a solution containing an excess of free alkali and saltpeter. The tin is recovered as crystals of stannate of soda and the alkali and saltpeter can be used over and over again.

## New York's Great Fire.

One of New York's greatest fires started on Sept. 21, 1776, six days after the British captured the city. Trinity church and 493 other buildings were destroyed, says Gas Logic.

# A big-scale road test on 3,200 tubes

How Firestone puts the miles in — and then proves it—not at YOUR expense.

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly — improvements and developments are arrived at.

By close watching of a large number of tubes in service—not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test—in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

## Double Affection.

Elsie was proud and much excited over a pair of new shoes and while calling on a friend could think and talk of nothing else. To get her interested in something else, the woman at whose home she was visiting tried to take her up to an elephant made of teakwood, about a foot high, looking rather real. Baby was much afraid at first, but went nearer trembling as she went along. Finally she put her little hand on his head and, finding him harmless, put both arms around him and cried out in astonishment and joy: "He loves me—he loves my shoes!"

## Jack in Garden.

Jack-in-the-pulpit, by nature a bog lover, is by no means as fastidious as the most of its clan, and a moist, slightly shaded spot in one corner of the yard will amply supply its demands, says the American Forestry association of Washington. This plant is a near relative of the cultivated calla, with purple and white or green and white striped blossoms—usually called flowers. The real flowers, though, are deep in the center of this showy dress, at the base of the central spadix, and may be either fertile or sterile.

## Handicapped by Height.

As a rule very tall persons are said to be over-sensitive about their height to such a degree that it often proves a handicap in the way of their success in life. A notable instance of this character was the nine-foot giant of Russia, Machnow, who made a fine living by exhibiting himself, yet he was the most miserable person on account of his height.

## Planets Without Moons.

The only planets that have no moons are those nearest the sun, namely Mercury and Venus. Counting our own moon, the system of planets possesses no fewer than 27 moons.

## WOODSTOCK

P.D.

PROMPT DELIVERY

A Boon to Business

Facts about the Woodstock, the highclass, standard typewriter manufactured by the Woodstock Typewriter Co., Woodstock, Ill.

The typebar system, carriage and escapement wheel, the vital parts of any typewriter, are made much heavier in the Woodstock than in other machines. That is who it holds up better and why it is guaranteed for one year longer than any other modern typewriter. Used in all the principle institutions of learning in America.

## Is Your Money Supporting the Government?

At this critical period in our history our manufacturers are offering their mills and our young men are offering their services to the United States government. Would you like to do your share and help, by putting your money where it will support the new Federal Reserve Banking System, which the government has established to stand back of our commerce, industry and agriculture?

You can do this by opening an account with us as part of every dollar so deposited goes directly into the new system, where it will always be ready for you when wanted.
