NEW POLITICAL PARTY ORGANIZED AT CHICAGO

Campaign Support of 10 or 12 Organizations is Expected.

Chicago.—Foundation stones were laid for a new party in which to unite all third party movements, when the committee of 48 and the single tax party joined in their first national convention to draft a platform and pick nominees who, they hope, will win the support of 10 or 12 liberal organizations.

The first day's session, devoted to legislative speeches and organizational work, developed as many different views as there were fractions represented.

Many Elements Represented. An estimated 200 members of 48 organizations, with a majority of 278 reported as nominees. The 48 included, in addition to the 48 and single tax party, Industrial delegates from the independent league, triple alliance of the northwest, farmers' national council, people's money league, the producers' league and consumers' league and several other organizations. The committee of 48 embraces a number of well-known liberal leaders, some of whom were prominent in the "bull power" movement eight years ago.

The labor party opened its second national convention here with the committee of 48 and the single-tax committee.

Soviet Russia Cheered. Amalgamation of the committee of 48 and labor party of the United States with a common platform and common presidential ticket, was recommended to the two conventions.

John Fitzpatrick, president of the Chicago Federation of Labor, and keynote speaker, brought the convention to its highest enthusiasm with a plea "that the day would come when the working people of the United States would get together and do a job such as the workers of Russia have done."

Delegates stamped and whistled and three cheers for soviet Russia were given.

Fitzpatrick declared there was nothing to prevent the "hand and brain workers taking the government out of the hands of our Americans, but international financial groups," and advised all the minority groups to unite on one ticket.

DALLAS MILL DESTROYED

\$200,000 Loss Estimated to Willamette Valley Plant.

Dallas, Or.—Fire originating from a hot box on a slab conveyor broke out in the Willamette Valley Lumber company's sawmill here during the noon hour and completely destroyed the engine room and main sawmill, entailing a loss estimated at \$200,000. The mill was built 14 years ago and was considered one of the largest in the state.

Citizens of Dallas responded for the emergency and, combining with the fire department and employees of the mill, made nearly 1000 stages of fighting the flames and saving valuable cuts of logs, the lumber yard and neighboring manufacturing plants.

Vanderwever Fined \$50 at Astoria.

Astoria.—George F. Vanderwever, chief counsel for the I. W. W. at the trial in Montesano for the slaying of four ex-service men, was found guilty in the police court here on the charge of resisting an officer, and was fined \$50. Vanderwever took an appeal to the circuit court. It was during a picnic, advertised as a "Workmen's Picnic," July 5, that Vanderwever had told Vanderwever that he could not speak. Vanderwever insisted, and was arrested.

Bar on Russian Trade Removed.

Washington.—Restrictions on trade with soviet Russia were removed by the state department except in so far as they pertain to the shipment of material susceptible of immediate use for war purposes. In announcing its action the state department took particular pains to state that political recognition present or future of any Russian authority exercising, or claiming to exercise, governmental functions was neither granted nor intended.

Washington Penitentiary Has Blast.

Walla Walla, Wash.—Fire at the penitentiary did several thousand dollars' damage, burning about 40 tons of coal, a steel 60x200 feet, the sidewalk along the shed, the upper part of a goods car and for a time threatening the prison shops. Spontaneous combustion is believed to have caused the fire.

Argentina Limits Exports of Wheat.

Buenos Aires.—Further exportation of wheat from Argentina is limited to 500,000 tons, according to a decree issued by President Irigoyen.

Emerald and Argemone.

I do not know what argemone does in reference to our expression of any thought. I delight in seeing what I think. But if you ask me how I think say so, or why it is so. I am the most helpless of mortal men.—Hawes.

Added Percentages.

A 50 per cent increase for an article that costs \$3 would make it cost \$4.50. But for the article that has doubled in price the new price is 200 per cent of the old.

Gas for Balloons.

Helium is the gas most commonly used for balloons. It requires about 1,250 cubic feet to lift a balloon weighing 100 pounds. Cool gas is sometimes used, as it is cheaper, but is not entirely satisfactory because of its great heatiness.

Tobacco Seeds Almost Dust.

The seeds of the tobacco plant are so minute that a bushel will furnish enough plants for an acre of ground.

Tribute to the Pen.

The pen, like the sword, has a dark side to its history. Not only has it created a great deal of rubbish, but it has appealed to the evil passions of the ignorant and the dishonest; it has incited anarchy, sedition and hatred. But to the pen we are indebted for all the books of the world. It has enabled poets to sing to us, scientists to claim as philosophers and men of science to share with us their valuable knowledge; it gives us the Bible, it inspired civilization. It is a mighty agent. "Beneath the rule of men is truly great."

Valuable Fat in Alligator Pear.

Among the fruits used for food, the alligator pear is remarkable for its large proportion of fat, which runs as high as 20 per cent, or about the same as that of common cream. States an article in Popular Mechanics Magazine. It has been found that the human system assimilates this fat very readily up to as great a quantity as four and a half ounces a day.

Grades of Witches.

In the olden times there were three grades of witches. The black witch was a harmful affair, and the white witch was a helpful spirit. Then there was the gray witch who was sometimes harmful and sometimes helpful. Indulgences against persons accused of witchcraft had to state the complexion of the spirit that bewitched.

Winged Expresses.

Blue rock pigeons fly from 25 to 35 miles an hour. Pheasants at their best cover about 30 miles an hour, and partridges from 25 to 30 miles an hour. Carrier pigeons have been found to do as much as 50 miles an hour.

"You Can Bank on It" says the Good Judge

You will save money by using the Real Tobacco Chew. The full, rich tobacco taste lasts so long, you don't need a fresh chew nearly so often.

Smaller chews, too, and more genuine satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

RIGHT CUT is a short-cut tobacco
