

**Loss by Storing Pulpwood.**  
It has been found by observations made at a sulphate pulp mill that pulpwood kept in storage from two to three years yields, on the average, 28 per cent less pulp than wood used when it is green, says Popular Mechanics Magazine. Pulpwood stored even one year loses 14 per cent of its value in pulp production.

**Moon's Time for Sleep.**

**Quite Sure of It.**

**Drink Water When Tired.**  
Dr. Eliza B. Mosher of Brooklyn urged the members of the Women's Medical society of New York state to drink a glass of water at 10 a. m. and others at 3, 4 and 5 p. m. This, she told them, would dilute the products of fatigue which were entering the blood and causing that tired feeling.

**SOVIET GOVERNMENT AGREES TO ARMISTICE**

**Bolshevik Commanders Ordered to Arrange for Negotiation With Poles.**

London.—The Russian soviet government has accepted Poland's proposal for an armistice and has ordered all bolshevik commanders in the field to arrange for negotiations to that end immediately, a wireless dispatch from Moscow stated.

Russia's reply to Poland's application for armistice negotiations brings in sight a possible solution of one of the most serious crises which Europe has had to face since the conclusion of the armistice with the Germans in November, 1918.

The official world of allied Europe has been stirred to its depths and undigestedly alarmed over the sweep of the soviet armies through territory held by the Poles to the very borders of Poland proper, with a menace to Warsaw and the virtual wiping out of Poland as a nation looming up to the allies as possibilities if measures were not taken to head them off by giving efficient and speedy aid to the Warsaw government.

**EARTHQUAKE SHOCK WAKES LOS ANGELES**

Los Angeles.—A sharp earthquake shock woke Los Angeles at 4:12 Monday morning. Reports to the telephone and telegraph companies and to fire and police departments indicated it apparently was felt chiefly at Los Angeles and in a lesser degree at Inglewood and Redondo beach, the former about twenty-two miles distant, both in a southwesterly direction.

A second and much lighter shock was felt in Los Angeles at 8:59 a. m. Immediately following the first shock there was a wild exodus from hotels and dwellings.

Half-clad people rushed from the buildings, seeking refuge in parks and open spaces, and fearing to return to the buildings for their clothes.

The second shock, coming when many people were at last sitting down to breakfast, caused another rush for the streets.

It is reported that the Los Angeles county court house is so damaged from shocks since July 16, culminating with Monday morning's temblor, that it will be torn down.
