**Have You Investigated the Western Pipeless Furnace**

DUST PROOF

**The World's Most Remarkable Home Heating Plant!**

no pipes through the walls or floors. One register heats entire house, evenly and effectively. The principle of a Pipeless Furnace is scientific and practical. A proven success. It does the work better and cheaper than stoves, hot water or hot-air pipe furnaces, besides saving work for the housewife and others in the family.

**Installed in Your House Without Costly Alterations**

Western Pipeless Furnace can be installed in your present home at slight cost, and when installed in a new house saves all the cost of costly plumbing, piping, radiators, stoves. The Western is made by Western engineers to meet Western conditions. It is designed for soft coal and wood. Hard Coal furnaces leak gas and smoke when used with soft coal. The Western is dust proof. If you cannot call and see this wonderful furnace, phone and our heating engineer will call and give estimate of cost and explain all details without obligation on your part.
