

# CLEAN-UP CAMPAIGN NOW ON!

Residents of Prineville are urgently requested by the Committee in charge of this work to begin a vigorous campaign on September 25 in an effort to clean the city of all unsightly materials. Permission has been granted by the city authorities to burn rubbish during a five-day period beginning September 25; the work will be under the supervision of the City Marshal.

**YOU ARE URGED** to cooperate in this campaign to improve the looks of the town and reduce the danger from fire, by piling and burning all dead grass, weeds and rubbish on your premises or in the street, and to pile cans and articles that cannot be burned so that a truck may conveniently reach them.

About September 28th the committee will probably call upon you to see what progress has been made and arrange for transportation to the dumping grounds—at a nominal cost to you—of any material you have not been able to handle yourself.

Please do not be a slacker, but enter into this with an interest that the plan merits. Let us make Prineville a **FIT PLACE TO LIVE** from both a sanitary and scenic standpoint.

THE COMMITTEE

### SAWS RESET.

"There's one thing that's certain"  
Says old Mr. Peck;  
"A boil on the stove is  
Worth two on the neck."  
—Cincinnati Enquirer.  
Says wise Uncle Ben,  
(Uncle lived in a hat)  
"A stove in the kitchen  
Is worth two in the hat."  
—Zanesville Signal.  
And here is one spelled  
By old Uncle Jack;  
"A stitch in the side  
Is worth two in the back."  
—Youngstown Telegram.  
Says old Mr. Grumpy,  
Whose learning is wide:  
"A stitch in the vest  
Is worth two in the side."  
—Peoria Journal.  
And here is another,  
By old Uncle Joe:  
"A corn on the stalk  
Is worth two on the toe."  
—Davenport Times.  
Said young Mr. Duffer,  
A gay dog is he:  
"A peach in the lap  
Is worth two on a tree."  
—Birmingham Age-Herald.  
Said old Uncle Jap—  
And what he says goes—  
"A mole in a trap  
Is worth two on the nose."  
—Pathfinder.

"Ma! Ma!" bawled Freddie as  
the usual morning wash was going  
on. "Do my ears belong to my face  
or my neck?"  
"I want it decided now. Every  
time you tell Mary to wash my face  
or neck she washes my ears too."  
—Ladies Home Journal.

Teacher—Johnny, of what are  
your boots made?  
Boy—Of leather, sir.  
Teacher—Where does the leather  
come from?  
Boy—From the hide of the ox.  
Teacher—What animal, therefor  
supplies you with boots and shoes  
and gives you meat to eat?  
Boy—My father.

Mr. Batz—You ought to brace up  
and show your wife who is running  
things at your house.  
Mr. Meek (Sadly)—It isn't neces-  
sary, she knows.

Banana Stalks for Horses.  
Chopped banana stalks, used as soon  
as the fruit has been harvested, have  
been used in Queensland for feeding  
horses.

## "Let Me Tell You This" says the Good Judge

More men every day are find-  
ing that it costs less  
to use the Real To-  
bacco Chew.

The full rich taste lasts so  
long, a small chew satis-  
fies; it's just what you have  
been looking for.

That's why it costs you  
less.

Any man who uses the  
Real Tobacco Chew will  
tell you that.

Put up in two styles

**RIGHT CUT** is a short-cut tobacco  
**W-B CUT** is a long fine-cut tobacco

## IT'S A PLEASRUE

to watch your account grow.  
Every dollar deposited repre-  
sents some little comfort later  
in life. You'll marvel at the  
growth of your account. Com-  
pound interest multiplies fast.  
When we solicit your patron-  
age we do so with the knowl-  
edge that you will find in our  
bank full measure of satisfac-  
tion.

## Have You Investigated the Western Pipeless Furnace

DUST PROOF

The World's Most  
Remarkable Home  
Heating Plant!

no pipes through the walls or floors.  
One register heats entire house, ev-  
enly and effectively. The principle  
of a Pipeless Furnace is scientific and  
practical. A proven success. It  
does the work better and cheaper  
than stoves, hot water or hot-air  
pipe furnaces, besides saving work  
for the housewife and others in the  
family.

Installed in Your House  
Without Costly  
Alterations

Western Pipeless Furnace can be in-  
stalled in your present home at  
slight cost, and when installed in a  
new house saves all the cost of costly  
plumbing, piping, radiators, stoves.  
The Western is made by Western  
engineers to meet Western condi-  
tions. It is designed for soft coal  
and wood. Hard Coal furnaces  
leak gas and smoke when used  
with soft coal. The Western is dust  
proof.

If you cannot call and see this won-  
derful furnace, phone and our heat-  
ing engineer will call and give esti-  
mate of cost and explain all details  
without obligation on your part.
