

NEWS NOTES FROM OUR PUBLIC SCHOOLS

Mr. Babcock had the seventh grade history class tell of the different men that had a part in settling America, and what they were noted for. The school encyclopedias were used to learn about them.

The sixth, seventh and eighth grades have raised money for a new football. At present they are practicing with an old ball.

The basket work in the seventh grade is progressing very rapidly. \$1.00 worth of matting has just been received and money is being raised for more material.

The job of painting the school house roof has just been finished, making quite an improvement.

Alvin Becker and Carl Gallagher have shown the seventh grade some very good pictures, some of which will be entered at the Fair.

The primary class has the large enrollment of twenty-two, and they are getting along very nicely.

The eighth grade has a small enrollment this year. There are only

about half as many as last year. There are two girls and one boy in the A class, and one boy and eight girls in the B class.

All pupils in the seventh grade have to write each misspelled word one hundred times. Since the first of the week there have been less words misspelled than ever before.

The order in line has improved since the beginning of school. The drums are beaten by Clare Carlson and James Saltzman.

The fire drills started last week. The pupils got out of the building in very good order and in very quick time, considering the fact that it was the first drill.

The health officer, Dr. Edwards, has warned the teachers to send all pupils who show signs of whooping cough home immediately.

Avex Miller has just enrolled in the fifth grade. The boys are glad to have him back, and he is glad to be there.

A "Brief" Honeymoon.
Lord Henning is nothing if not original. His honeymoon was quite unique. He told his friends that, after being called to the bar, he was to be married and spend his honeymoon in Spain. That sounded extravagant for a budding barrister, probably not overburdened with pocket money. But he was businesslike even then, and it was found later that a certain firm of solicitors had given him as a wedding present a commission to take evidence in Madrid. So he took his wife with him and combined business and pleasure.—Exchange.

Ornamental Thumbna.
At one time, apart from the shape, which is imperative, thumbnaes were decorated with all kinds of precious stones at the tip—and these were, of course, designated more for ornament than use, when it was the fashion, as Sheridan remarks, for fine ladies to play "at fine work," according to the Irish World. Ladies in our grandmothers' days, besides seeing to the household and personal linen, generally worked in delicate material in silks and satins, when a smaller thumbna was brought into play and used with some of the witchery of the fan.

Appreciative Eyes.
He may be homely and he may need a shave and his clothes may be shabby. But to the little tad who has had his nose pressed against the window pane waiting for him to come home from work he is the handsomest man in the world.—Arkansaw Thomas Cat.

World's Highest Dam.
The highest dam in the world is planned for the Sutlej river in northern India, 40 miles above Rupa. The wall will be thrown across a deep gorge, more than 1,000 feet wide. The dam will be 305 feet high.

TOO LATE TO CLASSIFY

FOR SALE—One 3-battery Western Electric telephone instrument, complete, in first class condition. Call at this office. 3-6.

The Winkles are prospective buyers of a ranch near here.

Rev. Hartranft of Bend will hold a service in Terrebonne on October 3rd. His sermon will be on the Temple, and he will illustrate his sermon by building a miniature temple. It will be an all-day meeting and everyone is instructed to bring their lunch.

Frank Palotte and wife made a trip to Bend on Monday.

SUPLEE PEOPLE LOCATE IN WILLAMETTE VALLEY

Mr. and Mrs. Louis Miller last Monday sold their land in the Suplee country to Joseph L. Smith, thus closing up their interests in Central Oregon.

They planned to leave yesterday for Molalla, Oregon, where they expect to locate permanently.

R. W. REA GOES TO NORTH UNIT

R. W. Rea left last Thursday morning for Madras, where he will take charge of the segregation of irrigable lands on the North Unit Irrigation project.

Mrs. Rea will remain in Prineville.
