FAIR WAS FINANCIAL SUCCESS

The Oregon Inter-State Fair was a financial success, in spite of the fact that the gate receipts were \$1500 less than last year, according to the manager, R. L. Schee.

Much guess work has been made as to how the Friday and Saturday crowds at the fair compared, and the people will be interested in knowing that Saturday's gate receipts were only \$50 under that of Friday, in spite of the disagreeable weather.

Mr. Schee has been a very successful

ful manager for the Fair for a number of years, and what success it has attained has been due largely to his efforts.

Oregon Must Have a Port Equal to Any Port on the Pacific Coast

Initiative measure No. 310 on the ballot gives to the Port of Portland means to create such a port. The primary object of this bill is to furnish the means to insure the opening and maintaining of a 30 ft. channel from Portland to the sea and of building and establishing port facilities at the City of Portland sufficient to handle the foreign and coastwise shipping of that port. The cost of this improvement will be met by the people living within the boundaries of the Port of Portland. When you go to the polls Nov. 2nd VOTE 310 YES and give to the Port of Portland the power to maintain its 30 ft. channel to the sea and to build adequate port facilities to handle all of the great products of the interior of the state.

The passage of this bill means lower freight rates for the products of Oregon in reaching the markets of the world and a consequent greater profit to the producers. This is the most valuable measure that has ever been before the voters of the interior portions of the state.
