

**AYRES-BLANCHARD WEDDING
EVENT OF LAST SUNDAY**

One of the first early fall weddings occurred last Sunday, when Allen Blanchard became the bride of Shelby Ayres at the W. S. Ayres home west of Prineville.

The ceremony occurred at four o'clock Sunday afternoon, and was performed by Rev. F. C. Lassette of Portland, in the presence of immediate relatives and friends.

The bride and groom were accompanied by Harvey Ayres and Ladema Lytle, with the wedding march played by Miss Emble Reams.

The bride looked very sweet in a beautiful dress of white satin, and carried a bouquet of bride's roses. Miss Lytle also wore white, and carried red roses.

Mr. and Mrs. Ernest Hayes motored the young couple to the evening train on their way to Maupin for their honeymoon, where relatives of the bride reside.

Mr. and Mrs. Ayres will be at home to their friends at their apartment at 307 South Second Street.

HIGH SCHOOL NOTES

(Continued from page 1)

Wednesday morning, but this year the judging was completed earlier than usual. The work was of a very high quality, although the display was not as large as common. A prize of \$15 was given to the Domestic Art Department for its entire display.

The Potato Show at Redmond is to be held this week, and the practicability of sending the school exhibits to Redmond was discussed. There is the danger of having the articles lost or stolen, for this reason there is some doubt as to whether the display will be shown again.

The second team made its initial bow in the football world by defeating a like team from Redmond. The score was 18 to 0. Mr. Platts is the coach of this team, Chester McKenzie captain, Louis Reavis, manager. The team will play other second teams of Central Oregon on the same day and same place the first team plays.

Saturday, October the sixteenth, a game will be played with Redmond at Redmond. With the exception of two or three men Redmond has the same team as last year. Their men are considerably heavier this year and should be able to make a good showing.

An attempt was made to secure a game with the Grant county team on the following Saturday, October 23, but because of the present weather conditions, it is very probable that such an arrangement cannot be had.

On Thursday night, last week, business activities of various descriptions and degrees of integrity were held up to ascertain the source of a big noise. That was the night of the rally, and the citizens of the city were forewarned of its event a week previous to its occurrence. The students congregated at the school and marched through Main street, yelling and ringing cow bells. Numerous yells were given at each intersection and demonstrations of mild descriptions were given. This was the preliminary to the game the next day.

The orchestra have their practice every Tuesday night at 7:30. A few new entries have been made while several members already in the orchestra have changed to different instruments. The work is progressing splendidly and the hope for holding a concert is becoming a reality. Plans are being made to hold

a concert sometime in the last week of this semester. The money derived from this will go to purchase books and other supplies for the orchestra.

Physical training for the girls and military training for the boys has not been taken up this year, because of weather conditions. Both are required, while military training is compulsory. The only exemption to military training is physical disability or by being excused by consent of the faculty. This year, however, all boys turning out for any line of athletics will be exempt. Some time ago it was stated that a large number of boys had reported for football practice, but since that time the number has continued to dwindle until at the present time barely enough for two teams are on the field. In order to encourage a larger turnout for football, it is possible military training will be enforced, as the interest in this work is very slack.

To enable physical training in spite of weather conditions a gymnasium is needed. It will be remembered that plans were under discussion several years ago to raise money by subscription for a building. On account of the war the plans were laid aside so that the various war drives would not be hindered by too many calls for money. Now since the war is over, the possibility of the erection of a gymnasium can again become a factor in the minds of the people.

Two or three residents of Prineville are offering homes for girls who wish to attend high school. They may work for their entire board and room, or they may work for a part of it. Offers of this kind are frequently made. While the girls now attending school are taken care of, there may be others that wish such a place to stay. Information in regard to this can be had by communicating with Mr. Eweis.

GO TO RIDE FOR THE MOVIES

Frank Houston, son of Charles Houston, and Claude Smith, left Monday for California, where they expect to ride in the movies with the Harry Carey outfit.

Claude Smith has been a rider for Leland Casey for a number of years, and Frank Houston has just about grown up on a horse.

OCHOCO IRRIGATION ASSESSMENT INFORMATION

For the information of the land owners under the Ochoco Project, the Journal has secured an interview with Engineer R. E. Froysoth:

The bond issue to be voted upon at a special election to be held at Grimes Chappel on Saturday, October 16th, is submitted.

"It is hoped that this information will straighten out any misunderstanding, that the land owners may have regarding the special assessment," said Mr. Froysoth.

Repairs to Conduit Extension.
Repairs to concrete lined canal.
Repairs to canal at McKay point.
These three items effect every water user taking water from the main canal and constitute the major portion of the repair work contemplated.

The other repair items, while of less expense, are of vital importance to the water users which they serve. The other items include raising canal banks in a few scattered places, repairs to Lytle creek waste way, repairs to Rye Grass canal, including cleaning out and enlarging, repairs to old Foster Dam on Ochoco Creek, and repairs to the old Biggs

Powell ditch east of Prineville.

These items constitute \$1.51 of the proposed assessment of 2.95 per acre, for operation, maintenance and repairs.

The law allows the District to assess for general operation and maintenance .56 for this year. Past experience shows that it will require 1.10 per acre for the general operation so it will be necessary to assess an addition amount of .54 per acre to make up the deficiency for general operation. These two amounts, 1.51 for repair work mentioned and .54c additional for general operation and maintenance make up the total of 2.05. The voters are asked to authorize in the coming special election. This amount will be apportioned equally to every acre of land in the district.

The item of \$7000 for new construction covers the following items: Completion of High line pump plant, the construction of a waste ditch from the end of main canal to empty in the Crooked river, a timber diversion dam at the head of the Rye Grass canal, a timber structure at the crossing of Rye Grass canal and McKay Creek, the extension of the Foster ditch to take in land East of Prineville, and the installation of fish screens in main canal at the Dam and in the ditches taking out of Ochoco creek.

This item of \$9000 will amount to an assessment of .51 cents per acre for dry land, and for land having old water rights it will be apportioned in proportion to the percentage of old water rights. The above constitute the total of the special assessment.

Operation, maintenance, and repairs, 2.95, New construction, .51, Total, 2.56.

In addition to the special assessment there will be the normal assessment for operation and maintenance of 56 cents per acre and the interest charge of 30 cents per acre, making the total of 1921 assessment as follows:

Interest \$.30
Repairs, operation, maint..... 2.95
Construction51
Normal opr. and maint..... .56
Total 3.42

This means that the largest assessment for dry land will be 3.42 and old water rights will pay as much less on interest and construction as the percentage of their water rights. The average for irrigated lands being 3.03 per acre.

DATES FOR MENEELY LYCEUM SYSTEM ANNOUNCED

The dates for the Meneely Lyceum Course, to be presented by the Prineville Shrine Club, at the Club Hall, will be as follows:

Uncle Sam's Nieces, Oct. 30.

CANDIDATES FOR CITY OFFICES ARE FILED

The following candidates for city offices have filed with the recorder, asking that their names be on the ballot on November 2:

Will Wurzweiler, Mayor; H. R. Lakin, I. W. Ward, Geo. Nicolai, C. W. Noble, Ross E. Robinson for councilmen.
Geo. F. Euston announces that he is a candidate for treasurer, and other candidates are having petitions circulated, which will be filed before Monday evening, when the filings will be closed.

BODY OF LOCAL HERO EXPECTED HERE TODAY

The body of Elmer Houston, who lost his life in the Tuscania in disaster during the war, is expected today or later in the week, for burial in the local cemetery.

The Tuscania was hit by a German torpedo just off the coast of Scotland in the fall of 1917, and a large number of American soldiers on their way to help win the war were victims.

Mr. Houston reached a life boat safely, but it was crushed on the rocks along the shore, and his body was buried in Scotland during the war.

Elbert Houston, his father, received a telegram Friday, asking for instructions from New York, stating the remains were there.

Lower Prices for Our Customers

A lot has been published in the papers of late regarding lower prices. To a certain extent there has been price reductions but not to the extent that many have been lead to believe.

In every instance where there has been a market decline we have marked our merchandise to conform to the new level and our customers can be assured that we are going to continue to give the benefit of any market declines.

On many items this is going to mean a loss to us as it is impossible for any concern to carry the stock that their customers have a right to expect and still be able to get out without some loss. It is simply a loss that merchants must take on a declining market. Some of the prices named in this advertisement are special to clean up overstocks while others show market declines.

Pure Cane Sugar, 100lb sacks.....	\$14.55	Wedding Breakfast Syrup, 10lb tins, each.....	1.35
