THE GOLD MEDAL PRODUCT

Makes Your Home Bright, Clean and Attractive

IT MAKES OLD, DINGY FURNITURE fresh and new looking. It drives out dust with all its germs and ill-health. It dusts, cleans, polishes---all in one operation---just put a little on your dust-cloth or mop and use them in the ordinary way. CALOL LIQUID GLOSS is one of the Standard Oil Company's quality products---scientifically prepared after a thorough study of the properties required in such a polish. It is used not only in homes, but in offices, hotels, churches, schools, colleges, hospitals and public buildings. Put up in cans of various sizes from one-half pint to five gallons; and for large users, in barrels and half-barrels. Ask your dealer for it or communicate with our nearest agency. Awarded Gold Medals---highest competitive honors P. P. L. E., San Francisco, 1915, P. C. E., San Diego, 1915.

Standard Oil Company, Oakland, Cal.
ATTENTION MR. J. R. BRANCH
Gentlemen:

Early this year, through an actual demonstration on furniture by your Mr. Branch, we purchased one case of Calol Liquid Gloss. Our opinion of the product is best shown by the fact that we began using it exclusively and our second order called for a half barrel.

We find that it gives a most satisfactory luster without leaving the surface at all greasy. Calol Liquid Gloss spreads unusually well, and its freedom from acid or other injurious ingredients makes it entirely reliable for use on highly finished surfaces.

It has been used in our hallways and hardwood floors, and on furniture throughout our five hundred guest rooms.

We are very glad, indeed, to re-

commend it as entirely satisfactory for general polishing purposes.

Very truly yours,
HOTEL OAKLAND.

By F. A. SKEIN,
Assistant Manager.

For Cleaning and Polishing Floors
Dry dusting of wood floors merely circulates the dust. Calol Liquid Gloss removes it, brightening and renewing the floors and keeping them really clean and sanitary.

Calol Liquid Gloss may be used on any good floor mop. Only a very little Gloss is necessary and this will have to be renewed only when your mop fails to hold the dust.

Put two or three tablespoonfuls of Gloss in a tin container. Then place your mop in the container and leave it there for several hours. This permits the Gloss to be absorbed evenly throughout the fabric of the mop, and

avoids getting too much Gloss on the floor.

The mop should be well shaken out after use. It also should be washed and dried occasionally, after which it should be re-treated with Gloss in the manner described.

ATTENTION MR. J. R. KEANE
Dear Sir:

Complying with your request to tell you what we think of your Calol Liquid Gloss as a preservative of linoleum floor covering, am pleased to say that we have found it very satisfactory, having used it frequently since occupying the general office building nearly

three years ago, during which time we have had scarcely any maintenance expense for repairing linoleum. Am satisfied that had we not used it, our renewal cost would have been huge, as we probably have the largest area of linoleum covered space on the Pacific Coast, one office alone having an area of 25,212 square feet, exclusive of vault space, on one floor only, the traffic in all large offices being very heavy.

Beside preserving the linoleum, the frequent use of Calol saves the necessity of mopping so often, as it gives Battleship linoleum a luster that lasts for several weeks, and looks more clean than a floor would if mopped in the usual way every night.

In view of the foregoing, I feel warranted in recommending your Calol Liquid Gloss for use on linoleum.

Respectfully yours,
A. B. JOURS.

For Polishing Your Automobile
Your friends and the public judge your car largely by its appearance. Calol Liquid Gloss and a little play-work now and then will keep it bright and new.

Wash off any heavy mud or dust, wring out a piece of cheesecloth or chamois in water. Apply the Gloss with this, rubbing lightly over the car. Complete the polish by rubbing the surface thoroughly dry with a clean, dry cloth. No moisture should be left to pick up dust. In effect you have a newly varnished car. The Gloss is widely used for renewing leather auto tops, upholstery, etc.
