

The Olympic Line

A Tip to the Men Folk

How would you like golden brown pancakes or puffy waffles every morning? Then try bringing home a package **OLYMPIC** Pancake Flour. Suggest it be mixed with equal parts water or milk and put on the griddle. You'll be surprised—so will every one else. Takes but a jiffy to make a royal batch of pancakes.

Once the Pancake Flour gets in your pantry it makes way for **OLYMPIC** Flour and **OLYMPIC** Wheat Hearts, too.

The **OLYMPIC** line also includes the following scientifically prepared stock and poultry feeds:

SCRATCH FEED	HORSE FEED	HOG FEED
EGG MASH	STOCK FEED	DAIRY FEED
CRATE FATTENER	MOLASSES FEED	CALF MEAL

Climate and Longevity.

The general death-rate is found to increase with rising temperature and to diminish with a falling thermometer. These conclusions are a result of a study of about 400,000 deaths in New York in connection with the weather on the day of the death. The peculiarities seem to apply to all seasons. Variety, as in English or Canadian weather, is healthful and stimulating, and it is believed that some variability is as essential as proper humidity.

Recipe for Peaceful Life.

Daniel Webster once compressed a great deal of worldly wisdom into a few words: "Make yourself a little bit useful to your friends and a little bit dangerous to your enemies, and you have little to fear," he said.

Steel Pen Industry Holds Own.

In spite of the increase in the use of fountain pens there is still an immense consumption of the old-fashioned steel pens. Every day of the year, according to estimate, about four tons of best steel are used in the pen factories, and each ton makes a million and a half pens.
